L'équipe de rédaction a conçu et réalisé ce bulletin grâce à la collaboration des 107 collègues qui ont répondu cette année à notre questionnaire.

The editorial team have conceived and realized the present bulletin with the participation of 107 colleagues who answered the questionnaire.

Merci à tous de votre participation. Thank you very much for contribution.

Foreword / Avant-propos

The present bulletin is the result of the work realized by the CIM-secretariat during 2002-2003, in collaboration with colleagues that have sent informations and answered the questionnaire. Thank you very much to all of you for help and contribution. Due to deep changes in administrative structures and important works in the buildings of the Museum at Paris, the Bulletin 2003 has been dramatically postponed, edited and mailed very late. We apologize for the delay and hope everyone will receive it properly.

In May 2003, the CIM society is composed of 200 members. 13 new members have been registered in 2002, and 8 in 2003, while 11 members have been withdrawn from the list after decease, resignation or complete disappearance during several years.

107 people sent a reply to the questionnaire 2002/2003. Some of you answered the classical way, other via e-mail or directly from the webpages.

As main events of the cycle, the 12th International Congress of Myriapodology was held in KwaZulu-Natal, South Africa, in July-August, 2002 perfectly organised by Michelle Hamer and Rob Slotow. In April 2003, a celebration of the last 50 years of Myriapodology with special recognition of the contributions of J. Gordon Blower and E. H. Eason took place at Manchester Museum. It was part of the BMIG Meeting and a major event of remembering in Myriapodology.

During the 12th International Congress, an important general Assembly of the CIM took place. During this meeting were taken fundamental decisions: election of the board and council of the CIM Society, organization of the next congresses, final passing of Constitution and By-Laws of the Society. The definitive version of the text is published in this bulletin and on the website of the CIM as well.

Besides the management of the Society through the Secretariat and Treasury, and the development of the CIM as an International scientific Society, one of the main activity we managed during the period 2002-2003 was the improvement and increase of the webpages maintained under the name of the Centre International de Myriapodologie. The website is harboured by the server MNHN, at the Museum national d'Histoire naturelle, Paris (France) and aims to evolve toward an international site showing and linking worldwide activities in relation with myriapod or onychophorans, with respect to intellectual property and reference to original data authority. It aims to give informations and answers linked with research, education and conservation to the CIM members but also, in a general sense, to biologists and naturalists. Informations are available in the Website of the CIM: <http://www.mnhn.fr/assoc/myriapoda.INDEX.HTM>

According to discussions we had during the 12th ICM, we hope many of you will be pleased to contribute to further improvement of some pages (picture galleries, lists of valid names, announcements, suggestions, miscellaneous informations,...).

Best wishes and regards

**Jean-Jacques GEOFFROY
General-Secretary**

Presidential Report 2002

The year has been a very significant one for the Society. In August 2002 the 12th International Congress of Myriapodology organised by Michelle Hammer and Rob Slotow was held at Mtunzini, South Africa. It was well attended and a great success. The papers and discussions were of a very high standard.

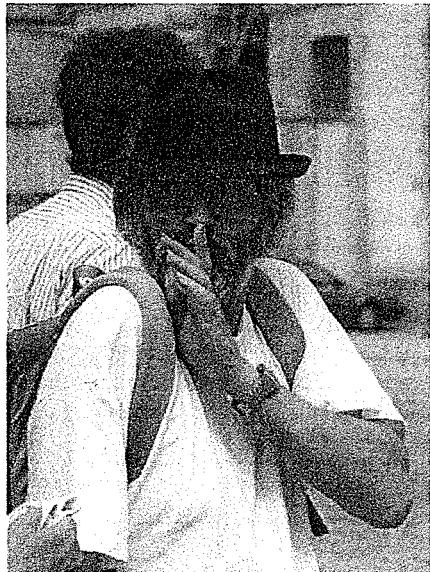

At the end of the Congress the General Assembly convened and for the first time in the CIM history elected an international Council. This then went on to elect a president and vice-president and to formally appoint a secretary and treasurer. The CIM is now a formally constituted International Society.

Earlier in the year the volume 35 of the *Bulletin du Centre International de Myriapodologie* edited by J.J. Geoffroy, J.P. Mauriès, M. Nguyen-Duy Jacquemin and J.M. Demange was published in Paris. This continues to be an invaluable tool for researchers in the field and its importance cannot be stressed too much. It entails a great deal of work by the Secretariat.

During 2002 (and early 2003) seventeen workers have been proposed for membership of the Society. This, and the fact that scientists from an increasing number of countries are participating I find very encouraging. It bodes well for the future of the Society.

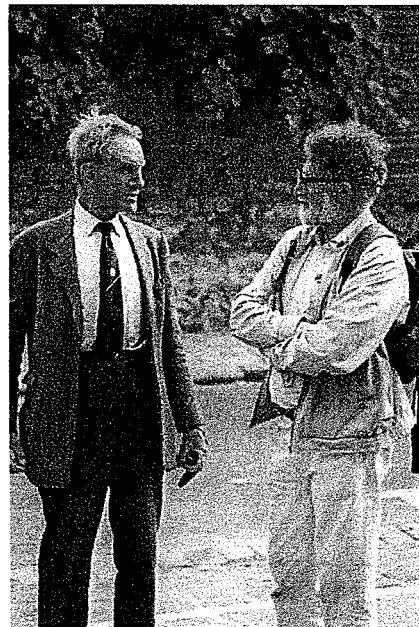

The Society continues to run very efficiently with Dr Jean-Jacques Geoffroy as secretary and the smooth administration of the finances, now in good heart following the agreed increase in annual subscription, is managed by Dr Monique Nguyen Duy-Jacquemin. The CIM owes a debt of gratitude to Dr Jean-Paul Mauriès who presided over the period of transition to a formal international Society.

Hieronim Jawlowsky

1887 - 1977

Professor Hieronim Jawlowski (1887- 1977), myriapodologist from Poland

Professor H. Jawlowski was born 26 June 1887 at Kaunas. He finished Biological studies in 1914 at St. Petersburg University. In the years 1919-1928 he worked at the Department of Zoology at the University of Vilnius.

His Ph D thesis :Über die Funktion des Zentralnervensystems bei *Lithobius forficatus* L. (1923) was published in 1929 (b). In the period of work at University of Vilnius he published also papers on millipedes, among them: Zwei neue Diplopoden aus der Umgegend von Wilno (1925a), Notatka o gatunku *Strongylosoma pallipes* (1925b), Krocionogi (dwuparce) okolic Wilna (1926), Przyczynek do fauny pareczników okolic Wilna (1927).

A newly discovered species of Diplopoda was named after prof. Jawlowski, *Brachyiulus jawlowski* by Hans Lohmander in 1928.

In 1929 prof. Jawlowski moved to Warsaw where he worked at the National Zoological Museum until 1939. He described new species and subspecies of millipedes from Poland: *Ommatoiulus vilnensis* (= *Schizophyllum vilnense*), *Xestoiulus* (= *Microiulus*) *leaticollis* Porat *mierzeyewskii* (1925a), *Karpatophyllum polinski*, *Leptoiulus czarnohoricus* (1928), *Mastigophorophyllum crinitum* Att. *huculicum* Jaw., *Mastigophorophyllum serrulatum* Att. *apiculatum* Jaw., (1935b), *Allopodoiulus verhoeffi* Jaw., *Leptoiulus trilobatus* Verh. *polonicus* Jaw., *Leptoiulus roszkowskii*, *Leptoiulus baconensis pruticus* (1930 c, 1936), *Ceratosoma (Beskidia) jankowskii* (1938b).

He elaborated materials of millipedes collected by himself in Poland (1929a, 1936, 1938a, 1939b) and obtained from different countries of the world such as Palestine (1931), regions of North America – New Foundland (1939a), Romania (1930a), Moldova (1935a), Bulgaria (1938c), Russia (1929c, 1933a), Yugoslavia (1933b), France (1933c) and European species of millipedes introduced to America (1930b).

During the Second World War prof. Jawlowski worked as labourer, took part in secret teaching in occupied Poland.

Soon after the war he started to live in Lublin, where he became the head of the Department of General Biology at the Medical Faculty of the newly founded University of Maria Curie - Skłodowska in 1945. Since 1950 the Faculty became an independent Medical University. Prof. Jawlowski continued heading the Department until 1962, when he retired. His last study in Myriapodology was published at 1950 - *Myriapoda of the Białowieża National Park*.

Prof. Jawlowski's developed in two directions of scientific research works : the first of faunistic studies in millipedes (Diplopoda) and second of central nervous system in insects. In his further years of research prof. Jawlowski focused on studies of brain structure in insects. The span of this interest in these problems goes back to a 1934 study concerning corpora pedunculata of Hymenoptera, until his last one from 1971 describing the brain structure of Coleoptera.

Prof. Jawlowski was a member of scientific societies, such as the Lublin Scientific Society, the Polish Entomological Society and the Polish Society of Nature Research (Copernicus Society).

Hieronim Jawlowski was loved by his colleagues and assistant workers for his noble character, kind-heartedness, and friendly and helpful attitude to people.

Prof. Hieronim Jawlowski will be remembered as the founder and leading representative of the Polish school of modern Myriapodology. His publications have been continuously quoted by contemporary research workers in this discipline.

CENTRE INTERNATIONAL DE MYRIAPODOLOGIE
Muséum National d'Histoire Naturelle
Département Systématique & Evolution (Zoologie-Arthropodes)
61, rue Buffon F-75231 Paris Cedex 05 (France)

Créé à Paris en 1968, le CENTRE INTERNATIONAL DE MYRIAPODOLOGIE (CIM) représente le regroupement des myriapodologistes et onychophorologistes du monde entier. Le secrétariat du CIM est situé au Muséum National d'Histoire Naturelle à Paris: Département Systématique & Evolution (Zoologie-Arthropodes). Il a pour mission d'informer rapidement les myriapodologistes (mais aussi les autres zoologues et biologistes qui le désirent) sur les travaux en cours ou publiés dans tous les domaines de la myriapodologie (Myriapoda & Onychophora), allant de l'étude des macromolécules à celle des complexes d'écosystèmes.

Pour son fonctionnement, Le CIM reçoit de la part de ses membres une cotisation annuelle ou, à défaut, des ouvrages ou tirés-à-part destinés à constituer une bibliothèque internationale spécialisée. Celle-ci est déposée au Muséum National d'Histoire Naturelle, Zoologie-Arthropodes.

En décembre de chaque année, tous les collègues inscrits au CIM reçoivent un questionnaire. Celui-ci demande à chacun la liste des travaux publiés ou sous-presse pour l'année écoulée, mais aussi les sujets d'étude en cours ou en projet. En outre, il sollicite demandes ou informations pouvant intéresser tout chercheur dont le travail touche, de près ou de loin, aux Myriapodes et aux Onychophores.

Les scientifiques interrogés renvoient ce questionnaire fin février et, de l'ensemble des réponses venues de pays du monde entier, naît le bulletin, bibliographique et analytique, complété de l'annuaire, qui est envoyé à tous les collègues en avril-mai. Toutes ces informations paraissent également sur les pages du site web du CIM hébergé au MNHN à Paris <<http://www.mnhn.fr/assoc/myriapoda/INDEX.HTM>>

Lorsqu'un membre reste trois années sans répondre au questionnaire, ou sans envoyer de contribution, sa radiation de la liste devient effective.

Outre son rôle majeur d'information, le CIM contribue à une meilleure coordination de certains travaux mais est, de plus, chargé d'assurer, en tant que co-organisateur, la tenue régulière des Congrès Internationaux de Myriapodologie, qui ont lieu tous les trois ans :

1) 1968 (Paris, France); 2) 1972 (Manchester, Grande-Bretagne); 3) 1975 (Hamburg, R.F.Allemagne); 4) 1978 (Gargnano, Italie); 5) 1981 (Radford, Virginia, U.S.A.); 6) 1984 (Amsterdam, Hollande); 7) 1987 (Vittorio Veneto, Italie); 8) 1990 (Innsbruck, Autriche); 9) 1993 (Paris, France); 10) 1996 (Copenhague, Danemark); 11) 1999 (Bialowiewza, Pologne); 12) 2002 (Afrique du Sud, Mtuzini); 13) 2005 (prévu en Norvège, Bergen); 14) 2008; 15) 2011.

Le CIM est une société scientifique internationale
Depuis 1999, le CIM a été formellement constitué en association internationale avec Conseil, bureau et statuts. Le règlement intérieur est adopté en 2002 lors du 12e Congrès International de Myriapodologie de Mtuzini (Afrique du Sud).

Le Conseil et le Bureau sont assistés d'un Comité International comportant les membres fondateurs du CIM, les organisateurs de congrès internationaux et plusieurs membres désignés par la session plénière internationale des myriapodologues. Il est composé de: J.M. DEMANGE (Paris, France); J.P. MAURIES (Paris, France); O. KRAUS (Hamburg, Allemagne); †J.G. BLOWER (Levens, UK); R.L. HOFFMAN (Martinsville, Virginia, USA); C.A.W. JEEKEL (Oisterwijk, Hollande); A. MINELLI (Padova, Italie); H. ENGHOFF (Copenhague, Danemark); E. MEYER (Innsbruck, Autriche); M. NGUYEN DUY - JACQUEMIN (Paris, France); J.J. GEOFFROY (Brunoy, France); J. WYTWER (Varsovie, Pologne), Michelle HAMER (Pietermaritzburg, Afrique du Sud).

CENTRE INTERNATIONAL DE MYRIAPODOLOGIE
Muséum National d'Histoire Naturelle
Département Systématique & Evolution (Zoologie-Arthropodes)
61, rue Buffon F-75231 Paris Cedex 05 (France)

Created in Paris in 1968, the CENTRE INTERNATIONAL DE MYRIAPODOLOGIE (CIM) regroups myriapodologists of whole world. The secretariat of the CIM is located in the Muséum National d'Histoire Naturelle of Paris: Département Systematique & Evolution (Zoologie-Arthropodes). Its mission is to rapidly inform myriapodologists (and other zoologists and biologists) of works which are in progress or published in all the fields of myriapodology (Myriapoda & Onychophora), from the study of macromolecules to the study of ecosystems and landscape ecology.

For its functioning, the CIM receives from its members either an annual subscription, or books and reprints destinated to set up a specialized library. This myriapodological library is located in the « Muséum National d'Histoire Naturelle, Paris, Zoologie-Arthropodes ».

Each year, on December, registered members of the CIM receive a questionnaire. This questionnaire asks each member to provide a list of papers published or in press during the year, as well as research work in progress or in project. It also asks for any informations of general interest to researchers whose work involves Myriapoda or Onychophora.

The questionnaires are returned by the end of February; the bibliographical and analytical bulletin with the directory is compiled from all the replies, which come from countries around the world. This bulletin is sent to every member in April-May. The informations are also available in the webpages of the CIM site, harboured at the MNHN, Paris on <<http://www.mnhn.fr/assoc/myriapoda/INDEX.HTM>>

Any member who does not reply to the questionnaire during three years or does not send dues or reprints, is then immediatly removed from the list.

Apart from its wider role of providing information, the CIM helps to better coordinate some projects and also must ensure, as co-organizer, the regular holding of the international congresses of myriapodology which take place every three years:

1) 1968 (Paris, France); 2) 1972 (Manchester, UK); 3) 1975 (Hamburg, Germany); 4) 1978 (Gargnano, Italy); 5) 1981 (Radford, Virginia, U.S.A.); 6) 1984 (Amsterdam, The Netherlands); 7) 1987 (Vittorio Veneto, Italy); 8) 1990 (Innsbruck, Austria); 9) 1993 (Paris, France); 10) 1996 (Copenhagen, Denmark); 11) 1999 (Bialowieza, Poland); 12) 2002 (South Africa, Mtuzini); 13) 2005 (planned in Norway, Bergen); 14) 2008; 15) 2011.

The CIM is an international scientific society
Since 1999, the CIM has been formally constituted as an International Society with a
council, board and statutes. Constitution and By-Laws have been adopted in 2002
during the 12th ICM at Mtuzini (South-Africa).

The Board is assisted by an International Committee, including founding members of the CIM, organizers of international congresses and several members appointed by the plenary international sessions of myriapodologists. This Committee is composed of: J.M. DEMANGE (Paris, France); J.P. MAURIES (Paris, France); O. KRAUS (Hamburg, Germany); †J.G. BLOWER (Levens, UK); R.L. HOFFMAN (Martinsville, Virginia, U.S.A.); C.A.W. JEEKEL (Oisterwijk, The Netherlands); A. MINELLI (Padova, Italy); H. ENGHOFF (Copenhagen, Denmark); E. MEYER (Innsbruck, Austria); M. NGUYEN DUY - JACQUEMIN (Paris, France); J.J. GEOFFROY (Brunoy, France); J. WYTWER (Warsawa, Poland), Michelle HAMER (Pietermaritzburg, South-Africa).

Board 2002-2005

President: John G. E. LEWIS, Taunton, Somerset (UK) <johngelewis@aol.com>

DUES / COTISATIONS

**SUBSCRIPTIONS SHOULD BE MADE PAYABLE
TO THE ORDER OF
CENTRE INTERNATIONAL DE MYRIAPODOLOGIE
CCP PARIS 00 706 63 N 020**

Annual subscription 2003: 30€ Euros or 30\$ USD

To avoid bank charges, I would be grateful if you could arrange for payment to be made by one of the following methods¹:

- Direct payment through the bank, including bank fees and informing the Treasurer at the same time*
- International post order payable to "Centre International de Myriapodologie"*
- Cheque in Euros drawn on a bank in Paris, made payable to "Centre International de Myriapodologie"*

Payment by Credit Card is not possible at present.

TOTAL des DEPENSES **1187,60E**
TOTAL EXPENSES

SOLDE au 31-12-2002 **2532,39E**
BALANCE at 31-12-2002

The balance shows a positive result of 643.60 Euros for 2002. The balance at 31.12.2002 is to be totally used for the questionnaire and bulletin in 2003, and for major improvement of the informatic hardware.
The main expenses are the publication of the bulletin and the postal costs. This could be slightly reduced in future by careful and strict financial management and using electronic mails or forms from the website. However, the development and managing of the electronic communication has a real cost for software and hardware.

New expenses will result from the development of the website and of electronic communication: maintenance of the web pages on a server, improvement of the material: hardware, FTP and edition software, connections on the web. The >10 years old CIM computer was partly out of order and no more compatible with recent software versions. It has been replaced in March 2003 by a more efficient and powerful new one. This main expense will appear in the financial balance 2003.

To maintain the CIM active and viable, what we need is the regular subscription from most of the members.
Thank you very much to faithful contributors.

The annual subscription has been discussed and voted by the general assembly held during the 12th International Congress of Myriapodology (Natal, South-Africa) in July, 2002.

Yours sincerely,
Monique Nguyen Duy - Jacquemin, Jean-Jacques Geoffroy

Centre International de Myriapodologie: The International Society for Myriapodology Constitution and By-Laws

The definitive version of Constitution and By-Laws for CIM are here published, having been discussed, improved and approved at the 12th International Congress of Myriapodology in 2002 (Mtuzini, South Africa).
This text is available on: <http://www.mnhn.fr/assoc/myriapoda/CIMSOC.HTM>

CONSTITUTION

ARTICLE I - NAME

Section 1: The name of the society is «Centre International de Myriapodologie». It can be cited as English translation as «International Society for Myriapodology» but the formal name is the former one.

ARTICLE II - OBJECTIVES

Section 1: To promote the study of any aspects of Myriapodology and Onychophorology.

Section 2: To regularly organize an International Congress of Myriapodology and/or other meetings or symposia dealing with myriapodological or onychophorological matters.

Section 3: To promote the communication of myriapodological and onychophorological information among researchers through such publications - printed or electronic - as the Executive Committee deems most effective.

ARTICLE III - MEMBERSHIP

Section 1: All people, of any nationality, interested in the objectives of the Centre International de Myriapodologie shall be eligible for membership. To become a member, the candidate must send an application to the Secretariat and must be proposed by a member in good standing.

ARTICLE IV - OFFICERS

Section 1: The elected officers shall be the President, Vice-President and 5 to 10 Council Members.

Section 2: The members of the Council shall be elected by a majority of the votes cast, during the Ordinary General Assembly.

Section 3: The Secretary, Treasurer and Membership Secretary shall be appointed by the Council.

Section 4: The elected officers, Secretary, Treasurer and Membership Secretary shall serve as the Executive Committee. The President and Vice-President are elected among the Executive Committee.

Section 5: The Executive Committee shall conduct the business of the Centre International de Myriapodologie.

ARTICLE V - GENERAL ASSEMBLY

Section 1: The administrative General Assembly, open to all members, shall be organized at least once every three years by the Executive Committee. There shall be a General Assembly, open to all members, during the course of each International Congress of Myriapodology.

Section 2: Extraordinary general assembly - In case of extreme necessity, or if asked by half the members +1, the president may convene an extraordinary general assembly.

ARTICLE VI - AMENDING THE CONSTITUTION

Section 1: The constitution, or any part thereof, may be amended, suspended or repealed by a two-thirds majority of those voting in a postal or electronic ballot.

Section 2: Any member in good standing may propose an amendment to the Constitution, in writing, to the Executive Committee. Such a proposal, if approved by a majority of the Executive Committee, shall be submitted with a recommendation to the members as under Section 1 article VI. A proposed change to the Constitution not recommended by the Executive Committee must be submitted to members if twenty or more members in good standing re-submit it.

ARTICLE VII - PRINCIPAL OFFICE

Section 1: The principal office for the transaction of the business of the Centre International de Myriapodologie shall be determined by the Executive Committee.

ARTICLE VIII - FINANCIAL RESOURCES

Section 1: The financial resources of the Centre International de Myriapodologie are derived from membership dues and contributions, subscriptions, sales, donations, gifts and bequests.

Section 2: Membership dues shall be determined by the provisions of Article 1 of the By-Laws and Article 6 of the Statutes.

ARTICLE IX - DISSOLUTION

Section 1: The dissolution of the Centre International de Myriapodologie shall be decided by a two-thirds majority of those voting in a postal or electronic ballot, provided three months notice is given.

Section 2: Any assets shall be disposed of, subsequently, at the discretion of the Executive Committee.

BY-LAWS

ARTICLE I - MEMBERSHIP

Section 1: Membership shall be open to all people who make formal application, who pay the prescribed dues, and who are willing to abide by and uphold the Constitution and By-Laws of the Centre International de Myriapodologie. These are full active members. People who by virtue of low income or residence in a country which experiences severe exchange problems may be exempted from dues and become associate active members. New members are presented by a proposer (godfather), member of the CIM in good standing.

Section 2: Institutions, Associations or Societies may become moral members and may subscribe to publications at rates determined by the Executive Committee.

Section 3: Membership dues shall be established by recommendation of the Executive Committee at the General Assembly and shall be ratified by a majority vote of the members attending.

Section 4: All members in good standing have the right to vote and are eligible to hold office.

Section 5: A member whose dues have not been paid and who has not send any news within a period of three years shall forfeit the privileges of membership. Such members may be reinstated upon regularisation of the situation and/or payment of delinquent dues.

Section 6: The privileges of membership shall include the right to receive publications, to vote in accordance with the By-Laws and to participate in all the activities and functions of the Centre International de Myriapodologie.

Section 7: Honorary members may be proposed by the Executive Committee and elected by simple majority at the General Assembly. Honorary members shall enjoy all the services and the privileges under section 6 of this article.

Section 8: Associate membership may be bestowed or rescinded by the Executive Committee. An individual who by virtue of low income or residence in a country which experiences severe exchange problems may make formal application to the Secretary. Associate active members shall enjoy all the services and privileges under section 6 of this article.

Section 9: Benefactor-members are donors, they give to the society important registration fees for subscription. Benefactor members shall enjoy all the services and privileges under section 6 of this article.

ARTICLE II - OFFICERS

Section 1: The President, Vice-President and 5 to 10 Council Members shall be elected by a majority of the votes cast by members in good standing in a ballot at the General Assembly.

Section 2: The President serve for three years, or until his successor is elected, and can be re-elected once; his three-years duty period shall begin with the closure of one International Congress of Myriapodology and cease with the closure of the next International Congress.

Section 3: The Council Members shall each serve for three years. Their duties shall begin with the closure of one International Congress of Myriapodology and cease with the closure of the next International Congress. Council Members can be re-elected for one or two times.

Section 4: The nominees for each office shall be nominated by the Executive Committee on the agenda of the General Assembly or may be nominated by any member in good standing, provided notice is given in writing to the President not less than one calendar month before the General Assembly. Prior to the election each nominee must declare their willingness to serve if elected to the President before the General Assembly. All valid nominations shall be announced by the President at the General Assembly prior to balloting.

Section 5: The President shall preside at the General Assembly and at meetings of the Executive Committee. The President shall exercise a casting vote if necessary.

Section 6: Fifty per cent (50%) of the Executive Committee represents a quorum.

Section 7: In the absence of the President at a meeting, the Vice-President shall assume their duties for that meeting and shall become President in the event of death, resignation, disability or inability of the President. In the absence of both the President and the Vice-President at a meeting, a temporary chairperson shall be chosen to preside at the meeting by a majority of those members attending the meeting.

Section 8: The Executive Committee shall appoint all committees as necessary. The President and the Secretary shall be ex-Officio members of such Committees. Each committee shall elect its own chairperson.

Section 9: The Secretary is responsible to the Executive Committee for the administration of the Centre International de Myriapodologie. The Secretary may appoint one or two other people to assist in these tasks. The Secretary shall keep minutes of all Executive Committee meetings and General Assemblies, conduct official correspondence and maintain a record of the Centre International de Myriapodologie affairs. The Membership Secretary shall keep the membership records of the society.

Section 10: The Secretary shall effect the publications of the Centre International de Myriapodologie, such as the yearly Bulletin of the CIM and the Website of the CIM.

Section 11: The Treasurer shall keep financial records, accept dues and monies relating to memberships and subscriptions or any other origins, issue and pay invoices, maintain a bank account and report to members on the conduct of the Centre International de Myriapodologie finances every year in the Bulletin and website of the CIM and during General Assemblies.

Section 12: Changes to the Constitution or By-Laws passed by the membership shall be implemented by the Executive Committee via a ballot or temporary appointment as necessary. In the event of the death, resignation, disability or inability of any officer, except the President, the Executive Committee shall, at its discretion, make a temporary appointment until the date of the next election. Such an appointee shall be eligible for nomination at the next election.

ARTICLE III - INTERNATIONAL CONGRESS

Section 1: Offers to act as the Chairperson of the Organizing Committee of the next International Congress of Myriapodology shall be received by the Secretary prior to the General Assembly.

Section 2: The Executive Committee, after statuting themselves as to the suitability of the site and the proposed dates, as well as the facilities, services and availabilities, shall present all such viable offers to the General Assembly.

Section 3: The Chairperson of the Organizing Committee shall be elected in a ballot at the General Assembly by a majority of the votes cast by members in good standing.

Section 4: Once elected the Chairperson shall be free to appoint all other members of the Organizing Committee.

Section 5: The President and the Secretary of the CIM shall be members of the Organizing Committee.

ARTICLE IV - MEETINGS & GENERAL ASSEMBLY

Section 1: The date, time and place of the General Assembly, held during the period of the International Congress of Myriapodology, shall be determined by the Organizing Committee of the Congress with the agreement of the President.

Section 2: The membership shall be informed of the date, time and place of the General Assembly, and be provided with an agenda, at least three months prior to the meeting.

Section 3: A quorum at the General Assembly shall consist of the President or Vice-President or their representatives, the Secretary or his representative and twenty (20) members in good standing.

Section 4: There shall be a meeting of the Executive Committee during the course of the International Congress of Myriapodology. Meetings may be called by the President at other times.

ARTICLE V - FINANCE

Section 1: All funds accruing to the Centre International de Myriapodologie from members' dues and contributions, subscriptions, sales, donations, gifts or bequests are to be used at discretion of the Executive Committee, for the administration of the Centre International de Myriapodologie and the production of the Centre International de Myriapodologie publications (questionnaire, bulletin, website, databases...).

Section 2: The financial year shall run from the first day of January to the last day of December and members' dues are liable for payment on the first day of January.

Section 3: Honorary Membership and Associate active Membership are free of the liability to pay dues.

ARTICLE VI - AMENDING THE BY-LAWS

Section 1: By-Laws may be adopted, amended, suspended or repealed by a majority of members voting in a ballot at the General Assembly, provided there is notice of the proposed change on the agenda of the General Assembly at least three months prior to the meeting.

Section 2: Any member in good standing may propose an amendment to the By-Laws, in writing, to the Executive Committee. Such a proposal, if approved by a majority of the Executive Committee shall be submitted with a recommendation to the members as under Section 1 of this article. A proposed change to the By-Laws not recommended by the Executive Committee must be submitted to members if twenty or more members in good standing re-submit it.

Centre International de Myriapodologie : The International Society of Myriapodology

Règlement Intérieur

La version définitive de la Constitution et du règlement intérieur du CIM est publiée ici, après avoir été discutée, amendée et approuvée lors du 12eme Congrès International de Myriapodologie en 2002 (Mtuzini, Afrique du Sud). Ce texte est disponible à l'adresse suivante sur le site web du CIM
<http://www.mnhn.fr/assoc/myriapoda/CIMSOC.HTM>

CONSTITUTION

ARTICLE I - NOM

Section 1: Le nom de la société est Centre International de Myriapodologie. Sa traduction anglaise admise est "International Society of Myriapodology" mais son nom formel est le premier cité.

ARTICLE II - OBJECTIFS

Section 1: Promouvoir l'étude, dans tous ses aspects, de la Myriapodologie et de l'Onychophorologie.

Section 2: Organiser régulièrement un Congrès International de Myriapodologie et/ou toute réunion ou symposium en rapport avec les disciplines traitant des Myriapodes ou des Onychophores.

Section 3: Promouvoir la communication et la diffusion des informations myriapodologiques et onychophorologiques entre les chercheurs grâce à toute publication - imprimée ou électronique - que le Comité Exécutif (Conseil) jugera bon de réaliser.

ARTICLE III - MEMBRES

Section 1: Toute personne, de toute nationalité, intéressée par les objectifs du Centre International de Myriapodologie, peut devenir membre. Pour devenir membre, le candidat doit adresser une demande au Secrétariat et être présenté par un membre actif en règle.

ARTICLE IV - RESPONSABLES

Section 1: Les responsables élus sont le Président, le Vice-Président et 5 à 10 Membres du Conseil.

Section 2: Les responsables élus sont élus à la majorité des voix, au cours de l'Assemblée Générale Ordinaire.

Section 3: Le Secrétaire, le Trésorier et les éventuels Secrétaires-Adjoints sont nommés par le Conseil élu.

Section 4: Les responsables élus, le Secrétaire, le Trésorier et les Secrétaires-Adjoints constituent le Comité Exécutif. Le Comité Exécutif élit, parmi les membres du Conseil, le Président et le Vice-Président.

Section 5: Le Comité Exécutif conduit les affaires du Centre International de Myriapodologie.

ARTICLE V - ASSEMBLÉE GENERALE

Section 1: L'Assemblée Générale Ordinaire, ouverte à tous les membres, est réunie au moins une fois tous les trois ans par le Comité Exécutif. Une Assemblée Générale, ouverte à tous les membres, se tient durant chaque Congrès International de Myriapodologie.

Section 2: Assemblée Générale Extraordinaire - En cas d'extrême nécessité, ou si elle est réclamée par la moitié des membres +1, le Président peut convoquer une Assemblée Générale Extraordinaire.

ARTICLE VI - AMENDEMENT DE LA CONSTITUTION

Section 1: La Constitution, tout ou partie, peut être amendée, retirée ou abrogée à la majorité des deux-tiers des votes lors d'un scrutin postal ou électronique.

Section 2: Tout membre en règle peut proposer un amendement à la Constitution, en s'adressant par écrit au Comité Exécutif. Une telle proposition, si elle est approuvée par le Comité Exécutif, peut être soumise aux membres comme indiquée dans la Section 1 de l'article VI. Une proposition de modification de la Constitution non soutenue par le Comité Exécutif peut être soumise aux membres si vingt membres en règle ou plus la soumettent de nouveau.

ARTICLE VII - LOCALISATION PRINCIPALE

Section 1: La localisation principale des activités du Centre International de Myriapodologie est déterminée par le Comité Exécutif.

ARTICLE VIII - RESSOURCES FINANCIERES

Section 1: Les ressources financières du Centre International de Myriapodologie proviennent des cotisations et contributions des membres, inscriptions, ventes, donations, dons et legs.

Section 2: Les cotisations des membres sont déterminées par l'Article 1 du Règlement Intérieur et l'Article 6 des Statuts.

ARTICLE IX - DISSOLUTION

Section 1: La dissolution du Centre International de Myriapodologie est décidée à la majorité des deux-tiers des votants lors d'un scrutin postal ou électronique, une information concernant cette dissolution ayant été fournie dans les trois mois précédent le vote.

Section 2: Tous les biens et avoirs de la société sont alors liquidés par le Comité Exécutif.

REGLEMENT INTERIEUR

ARTICLE I - MEMBRES

Section 1: La qualité de membre est ouverte à toute personne qui en fait formellement la demande, qui paie les cotisations prévues, avec la volonté de se conformer et de faire observer la Constitution, les Statuts et le Règlement Intérieur du Centre International de Myriapodologie. Ce sont les membres actifs cotisants. Les personnes qui sont dans l'impossibilité de s'acquitter de la cotisation ou qui résident dans un pays soumis à de sérieux problèmes de transfert financier peuvent être exceptionnellement exemptées de cotisation et devenir membres actifs associés. Chaque nouveau membre est présenté par un parrain, membre du CIM en règle.

Section 2: Des institutions, associations ou sociétés peuvent acquérir le titre de membre moral et peuvent souscrire aux publications à un taux défini par le Comité Exécutif.

Section 3: Les cotisations des membres sont établies sur recommandation du Comité Exécutif lors de l'Assemblée Générale et ratifiées par un vote à la majorité des présents.

Section 4: Tous les membres en règle ont le droit de voter et sont éligibles au Conseil.

Section 5: Un membre qui ne s'est pas acquitté de sa cotisation et qui n'a envoyé aucune nouvelle en répondant au questionnaire ou déposant des publications durant une période de trois ans perd sa qualité de membre et est supprimé de la liste des membres. Sa situation peut être régularisée après paiement des cotisations dues.

Section 6: La qualité de membre inclut le droit de recevoir les publications, de voter en accord avec les statuts et de participer à toutes les activités et fonctions du Centre International de Myriapodologie.

Section 7: Des membres honoraires peuvent être proposés par le Comité Exécutif et élus par simple majorité lors de l'Assemblée Générale. Les membres honoraires bénéficient de tous les services et priviléges inscrits à la section 6 de cet article.

Section 8: La qualité de membre associé peut être accordée ou annulée par le Comité Exécutif. Une personne se trouvant dans l'impossibilité de s'acquitter de la cotisation ou résidant dans un pays soumis à de sérieux problèmes de transfert financier peut faire une demande formelle auprès du Secrétaire afin d'être admis comme membre actif associé. Les membres actifs associés jouissent de tous les services et priviléges définis dans la section 6 de cet article.

Section 9: Les membres bienfaiteurs sont des donateurs, ils s'acquittent auprès de la société de droits d'inscription élevés. Les membres bienfaiteurs jouissent de tous les services et priviléges définis dans la section 6 de cet article.

ARTICLE II - RESPONSABLES

Section 1: Le President, le Vice-President et 5 à 10 membres du Conseil sont élus à la majorité des voix par les membres en règle en un seul scrutin lors de l'Assemblée Générale.

Section 2: Le Président est élu pour trois ans, ou jusqu'à l'élection de son successeur et il est ré-éligible une fois ; sa prise de fonction commence dès la clôture d'un Congrès International de Myriapodologie et cesse à la clôture du congrès suivant.

Section 3: Les membres du conseil sont élus pour trois ans. Leur prise de fonction commence dès la clôture d'un Congrès International de Myriapodologie et cesse à la clôture du congrès suivant. Les membres du conseil peuvent être ré-élus une ou deux fois.

Section 4: Les conseillers pressentis pour un poste au Bureau sont désignés par le Comité Exécutif selon l'ordre du jour de l'Assemblée Générale ou peuvent être désigné par tout membre en règle, l'information sur cette proposition est adressée par écrit au Président au moins un mois avant la tenue de l'Assemblée Générale. Avant l'élection, chaque membre désigné doit déclarer sa volonté de servir les buts de la société au President avant l'Assemblée Générale. Toute désignation valide doit être annoncée par le President durant l'Assemblée Générale avant le vote.

Section 5: Le Président préside l'Assemblée Générale et les réunions du Comité Exécutif (Conseil). En cas de nécessité, le vote du Président est prépondérant.

Section 6: Cinquante pour cent (50%) du Comité Exécutif (Conseil d'Administration) représente un quorum.

Section 7: En l'absence du Président à une réunion, le Vice-President assume ses fonctions pour cette réunion et devient Président en cas de décès, démission, ou incapacité du Président. En cas d'absence du Président et du Vice-Président à une réunion, un représentant temporaire est choisi pour présider la réunion à la majorité des membres présents à la réunion.

Section 8: Le Comité Exécutif désigne tout comité qu'il lui paraît nécessaire. Le Président et le Secrétaire sont ex-Officio membres de tout comité. Chaque comité élit son propre président.

Section 9: Le Secrétaire est responsable, devant le Comité Exécutif, de la bonne marche administrative du Centre International de Myriapodologie. Le Secrétaire peut nommer un ou deux Secrétaires-Adjoints afin de l'assister dans sa tache. Le Secrétaire prend note des débats des réunions du Comité Exécutif et des Assemblées Générales, il gère la correspondance officielle et rédige les rapports d'activité du Centre International de Myriapodologie. Le Secrétariat tient à jour l'inventaire des membres de la société.

Section 10: Le Secrétaire gère les publications du Centre International de Myriapodologie, telles que le Bulletin annuel, le Questionnaire et le site Web du CIM.

Section 11: Le Trésorier tient à jour les comptes, reçoit les cotisations et tout versement en provenance des membres, de souscriptions ou de toute autre origine, émet et paie les factures, gère le compte bancaire et établit le bilan financier annuel du Centre International de Myriapodologie, publié dans le Bulletin du CIM et présenté aux membres lors des Assemblées Générales.

Section 12: Les modifications à la Constitution, au Règlement Intérieur ou aux Statuts transmis par les membres sont entérinés par le Comité Exécutif par vote ou par désignation temporaire si nécessaire. En cas de décès, démission, ou

incapacité d'un responsable, à l'exception du Président, le Comité Exécutif désigne temporairement un remplaçant jusqu'à la prochaine élection. Le remplaçant nommé est éligible à ce poste lors de la prochaine élection.

ARTICLE III - CONGRES INTERNATIONAL

Section 1: Les candidatures à l'organisation du prochain Congrès International de Myriapodologie doivent être reçues par le Secrétaire avant l'Assemblée Générale.

Section 2: Le Comité Exécutif, après avoir statué sur l'intérêt présenté par le lieu et les dates proposés, de même que sur les possibilités en infrastructure, services et personnels, présente les candidatures valides à l'Assemblée Générale.

Section 3: Le Président du Comité d'Organisation est élu lors d'un scrutin lors de l'Assemblée Générale, à la majorité des membres en règle présents lors du vote.

Section 4: Une fois élu, le Président du Comité d'Organisation est libre de nommer tous les autres membres du Comité d'Organisation.

Section 5: Le Président et le Secrétaire du CIM sont membres du Comité d'Organisation.

ARTICLE IV - REUNIONS ET ASSEMBLEE GENERALE

Section 1: Les dates, heure et lieu de l'Assemblée Générale, tenue durant le Congrès International de Myriapodologie, sont déterminés par le Comité d'Organisation du Congrès, avec l'assentiment du Président.

Section 2: Les membres sont informés des date et lieu de l'Assemblée Générale, communiqués avec l'ordre du jour, au moins trois mois avant la réunion.

Section 3: Un quorum à l'Assemblée Générale consiste en le Président ou son représentant, le Secrétaire ou son représentant et au minimum vingt (20) membres en règle.

Section 4: Une réunion du Comité Exécutif se tient durant le Congrès International de Myriapodologie. D'autres réunions peuvent être convoquées par le Président, à tout moment.

ARTICLE V - FINANCES

Section 1: Tous les fonds perçus par le Centre International de Myriapodologie provenant des cotisations des membres, de contributions, souscriptions, ventes, donations, dons ou legs sont utilisés à la discrétion du Comité Exécutif, pour le développement des activités du Centre International de Myriapodologie et l'édition des publications du Centre International de Myriapodologie (questionnaire, bulletin, site web, bases de données...).

Section 2: L'exercice financier annuel va du 1er janvier au 31 décembre de l'année civile et les cotisations des membres sont dues dès le premier janvier de l'année.

Section 3: Les Membres Honoraires et les Membres Actifs Associés sont exemptés de cotisation.

ARTICLE VI - AMENDEMENT DU REGLEMENT INTERIEUR OU DES STATUTS

Section 1: Le Règlement Intérieur et/ou les Statuts sont adoptés, amendés, retirés ou abrogés à la majorité des membres votant lors d'un scrutin à l'Assemblée Générale, une information sur les propositions de changement étant fournie avec l'ordre du jour à l'Assemblée Générale au moins trois mois avant la réunion.

Section 2: Tout membre en règle peut proposer un amendement au Règlement Intérieur ou aux Statuts, en s'adressant par écrit au Comité Exécutif. Cette proposition, si elle est approuvée par une majorité du Comité Exécutif, est soumise aux membres avec recommandation selon la Section 1 de cet article. Une proposition de modification des Statuts ou du Règlement Intérieur non recommandée par le Comité Exécutif doit être soumise aux membres si vingt membres en règle ou plus la soumettent de nouveau.

The text of statutes has been published in the Bulletin of the CIM Volume n° 35 (2002)
It is available on <http://www.mnhn.fr/assoc/myriapoda/CIMSOC.HTM>

Centre International de Myriapodologie [CIM]
International Society for Myriapodology & Onychophorology

Report of the General Assembly held at Mtunzini, Kwazulu-Natal, South Africa, Friday 2 August 2002

Compte-Rendu de l'Assemblée Générale tenue à Mtunzini, Kwazulu-Natal, South Africa, Vendredi 2 Août 2002

in the presence of: Periasamy Alagesan, Chao-Chun Chen, Per Djürsvoll, Wolfgang Dohle, Greg Edgecombe, Alfred A. Ernst, Jean-Jacques Geoffroy, Sergei I. Golovatch, Tanja Grgic, Michelle Hamer, Joseph Hannibal, Chao Jui-Lung, Markus Koch, Pavel Kocourek, Zoltán Korsós, Ivan Kos, John G.E. Lewis, Jean-Paul Mauriès (represented), Bjarne Meidell, Robert Mesibov, Tarombera Mwabvu, Pavel Nefediev, Monique Nguyen Duy - Jacquemin, Helen J. Read, Guy Redman, S. Richter, Elaine Robson, Helma Roggenbuck, Jörg Rosenberg, Hilke Ruhberg, Paul Selden, Antoni Serra, Rowland M. Shelley, Stylianos Simaiakis, Karel Tajovsky, Tsutomu Tanabe, Ivan Tuf, Jana Tufova, Karin Voigtlander, Christian Wirkner, Jolanta Wytwer,

The General Assembly can be validly held.

Joachim Adis, Henrik Enghoff, Richard Hoffman, Kiyoshi Ishii, Desmond Kime, Alessandro Minelli, Stefan Negrea, Luis Pereira, Pavel Stoev and Willy Xylander are excused.

1— Reminder-introduction by the Secretary (J.J. Geoffroy) on the name of the former President (J.P. Mauriès)

J.J. Geoffroy welcomes everyone and gives a general introduction about the history and position of the CIM. It is important to remind to recent members of the CIM, and to old members as well, some main events of the history of our international society of myriapodology and onychophorology.

The CIM, *Centre International de Myriapodologie*, has been created at Paris in 1968, during the first International Congress of Myriapodology, held in common with the first International Congress of Arachnology. The three people responsible of the creation of the CIM were Jean-Marie Demange, Otto Kraus and Jean-Paul Mauriès and they were rapidly joined by John Gordon Blower, forming what I am pleased to name the Four Musketeers of the CIM.

Besides them, all the participants to the First International Congress of Myriapodology are funding members of the CIM and this will be published in the CIM website.

Actually, this gentleman agreement constitution remain during years a society in fact, but not formally and officially constituted. It worked quite well but it appeared, during the 9th International Congress held at Paris in 1993, that this way of life was no more possible.

Therefore, during the 10th International Congress held at Copenhagen in 1996, it has been formally asked to the Permanent Secretariat to create and constitute a society, having statutes and deposited in a place in France.

This has been done in 1997-1998 and the existence of the society has been formally adopted and recognized by the CIM meeting held during the 11th International Congress at Białowieża in 1999. The participants of the 11th International Congress of Myriapodology are therefore funding members of the formal international society called Centre International de Myriapodologie.

The board having in charge the CIM affairs during the period 1999-2002 was:

Jean-Paul Mauriès as President; Jean-Jacques Geoffroy as Secretary; Monique Nguyen Duy - Jacquemin as Treasurer. Now, we have to go to the further step and constitute, for the first time of our history, a true Council and executive Committee constituted of elected and appointed members, among them will be elected the President and Vice-President for the period 2002-2005. We have also to discuss and adopt the final version of our constitution and by-laws, according to a text proposed by the Secretary and the former board. I hope this important new state of the CIM will be a good construction and, in the name of our former President, I wish long life to the CIM.

2— The International Committee of the CIM: proposal of the name of Michelle Hamer

The Board is assisted by an International Committee. The International Committee of the CIM is an informal group of people including founding members of the CIM, organizers of international congresses and several members appointed by the plenary international sessions of myriapodologists. This Committee is composed of: J.M. DEMANGE (Paris, France); J.P. MAURIES (Paris, France); O. KRAUS (Hamburg, Germany); J.G. BLOWER (Levens, UK); R.L. HOFFMAN (Martinsville, Virginia, U.S.A.); C.A.W. JEEKEL (Oisterwijk, The Netherlands); A. MINELLI (Padova, Italy); H. ENGHOFF (Copenhagen, Denmark); E. MEYER (Innsbruck, Austria); M. NGUYEN DUY - JACQUEMIN (Paris, France); J.J. GEOFFROY (Brunoy, France); J. WYTWER (Warsawa, Poland).

It is suggested to add the name of Michelle Hamer to this list.

Michelle Hamer is elected to the International Committee of the CIM unanimously.

3— Membership issues; Honorary members proposed by representatives of the former board

J.J. Geoffroy explains the categories of membership, these being:

Active members including full and associate members

Moral members – Institutions, Societies, Associations

Benefactor members – Those contributing at least 100 euros per year. It is hoped that there will be some in the future

Honorary members – These should be people that have made a major contribution to Myriapodology but have now retired from formal work. They may still continue to be very active but no longer hold a formal post.

Considering the CIM history related to the last 34 years, the former board suggests a list of ten names for acceptance as honorary members of the CIM in 2002.

Jean-Marie DEMANGE (Paris, France)
Wolfram DUNGER (Görlitz, Germany)
Kazimiera GROMYSZ-KALKOWSKA (Lublin, Poland)
Richard L. HOFFMAN (Martinsville VA, USA)
C.A.W. JEEKEL (Baerdijk, The Netherlands)
Otto KRAUS (Hamburg, Germany)
Jean-Paul MAURIES (Paris, France)
Stefan NEGREA (Bucuresti, Romania)
Maija PEITSALMI (Hämeenlinna, Finland)
Ulf SCHELTER (Häggeboholm, Sweden)

There are a few comments and proposed additions: Sergei Golovatch proposes A. Minelli however he is still working, others mentioned are G. Andersson, B. Condé, F. Sahli and J. Lewis. It is considered that 10 honorary members would be enough to start with.

The proposed list of Honorary members is agreed unanimously (0 against and 0 abstained).

4— Financial Report and amount of the annual subscription

The financial report was published in the 2002 CIM Bulletin and in the CIM-website as well. The report is adopted unanimously.

A proposal to increase the financial contribution to \$30 or 30 Euros is put forward. The subscription is used to send out the questionnaire, to edit the Bulletin, to reproduce it and to send it out. The little left is used for incidental expenses. There is, however not much left for emergencies. Subscriptions have not been increased since 1991 and it is now proving difficult to break even, an increase in subscription is inevitable to cover the costs. Bob Mesibov asks if this was enough or if there is a necessity for more. Jean-Jacques Geoffroy replied that the proposed increase should cover the costs. John Lewis proposes that the rise in subscription be adopted and it is agreed unanimously.

5— Discussion on the proposal for constitution and by-laws and adoption of the definitive version

A proposal for Constitution and By-Laws has been published since two years in the bulletin and in the website. Besides, several reminders have been regularly sent to people via the discussion sites myriapod and onychophora on yahoogroups.com managed by Bill Shear.

We received some answers from people that helped to propose today a better version of the text. J.J. Geoffroy is particularly grateful to Henrik Enghoff, Desmond Kime, John Lewis, Alessandro Minelli and Stefan Negrea for their contributions.

Several points need confirmation here however.

The number of elected members to Council has to be agreed. It is suggested not to have a fixed number but to have a minimum of 7 and a maximum of 12. In addition there will be two people appointed by the Council, the Secretary and Treasurer. Members of Council are elected for three years and can be re-elected 1 or 2 times. The President however is only in post for three years. The Council is elected by the general assembly and the Council appoints the Secretary and Treasurer. Elaine Robson requests that consideration was given to making sure that not all the Council change at the same time. J.J. Geoffroy had experienced problems in a Society where 1/3 of the Council change each time as the situation gets very complicated. He suggests seeing what happens at the next Congress and predicts that there will be some old and some new Council members.

John Lewis suggested that this situation is adopted at present and is changed in the future if necessary.

Zoltán Korsós proposes that the President could be re-elected once and this was agreed unanimously.

Membership issues & new members

Elaine Robson asks if there would be a category for student members. J.J. Geoffroy explains that it is usual that, to be a member of a Society it is necessary to pay the dues. However, he regularly receives requests from people who are unable to pay their subscriptions. He requests permission to continue with this 'gentleman's agreement'. As part of our friendly face we therefore accept 'Associate Active members' which are those that do not pay subscriptions, in addition to Full Active members. Therefore there is no need for a student membership.

To become a member you must send an application to the Secretariat and must be proposed by a member in good standing.

There are 12 candidatures for membership proposed before or during the Congress:

Thorsten BURMESTER (Germany) presented by Hilke Ruhberg
Jui-Lung CHAO (Taiwan) presented by John Lewis
Chao-Chun CHEN (Taiwan) presented by Jean-Jacques Geoffroy
Pavel KOCOUREK (Czech Republic) presented by John Lewis
Etienne IORIO (France) presented by Jean-Jacques Geoffroy
Roland MELZER (Germany) presented by Jörg Spelda
Bojan MITIC (Yugoslavia) presented by Slobodan Makarov
Guy REDMAN (South Africa) presented by Michelle Hamer
Paul SELDEN (UK) presented by Helen Read
Katim TOURE (Senegal) presented by Jean-Jacques Geoffroy
Elzbieta WARCHALOWSKA-SLIWA (Poland) presented by Georg Kania
Heather WILSON (USA) presented by Bill Shear

The 12 candidates are formally accepted. It is also accepted to re-establish Periyasamy Alagesan (India) as active member. It is proposed that if members do not pay or respond to the questionnaire for three years, they are removed from the list and that their name is published as such. Joe Hannibal suggests that two year no response is enough but as the Society seems to be operating on a three year cycle it is agreed on three years.

6— 13rd International Congress of Myriapodology, 2005 / proposal for Bergen (Norway) by B. Meidell

We heard during the 11th International Congress in Poland about a possible organization of the 13th International Congress in Norway, at Bergen, in 2005.

Bjarne Meidell presents this project. The proposal by Bjarne Meidell for Bergen, Norway still stands and is accepted. It is anticipated that the Congress will be held at the same time of the year (end of July/beginning of August).

7— 14th International Congress of Myriapodology, 2008

J.J. Geoffroy has received a proposal from W. Xylander of the State Museum in Görlitz, Germany offering to organise the Congress in 2008. This offer is read out. The final decision must be taken during the next International Congress, Bergen 2005. However, it is accepted to send a reply to W. Xylander as a receipt of his proposal.

8— Election of the Council

Candidates: 9 applications received by the secretariat on 30 June 2002, those being

Henrik Enghoff (Denmark); Michelle Hamer (South Africa); Zoltan Korsos (Hungary); John Lewis (UK); Bjarne Meidell (Norway); Luis Pereira (Argentina); Helen Read (UK); Rowland Shelley (USA); Karel Tajovsky (Czech Republic)

The Council was proposed 'en bloc' there was no one voting against, one abstention, and the rest in favour.

9— Miscellaneous questions

Quorum – The quorum for the general assembly is agreed as 20 members in good standing.

It is agreed to hold the general assembly every three years during the International Congresses.

A meeting of the Council should be held at least once every year. It is considered that this could be carried out by email.

S. Richter proposes that the CIM should buy a scanner for the office in Paris. J.J. Geoffroy replies that the Musuem in Paris hosts CIM but it is helpful to show that CIM is trying to help itself. The computer is now 10 years old and there will be a need to buy a new computer and scanner and also a need to find room to store the Bulletins. He requests that we all ask our friends if they might be benefactor members to raise some money for this.

Elaine Robson points out that it might be possible to obtain money from outside funding sources and requests that J.J. Geoffroy write down a short summary of the computer equipment he needed. J.J. Geoffroy agrees and also says that he would help complete any application forms necessary.

Vote of thanks

W. Dohle proposes a vote of thanks to the Paris Museum and the staff there for all their work on CIM. This is endorsed by everyone present.

The General Assembly is formally closed at 18h25 (6:25PM) and the CIM Council meets immediately.

MEETING OF THE CIM COUNCIL Centre International de Myriapodologie

Minutes of the 1st Council meeting / Mtunzini, Kwazu-Natal, South Africa Friday 2 August 2002.

Present: Jean-Jacques Geoffroy; Zoltán Korsós; John Lewis; Bjarne Meidell; Monique Nguyen Duy-Jacquemin; Helen Read; Rowland Shelley; Karel Tajovsky

1— Appointment of the General-Secretary

There is one candidate proposed - Jean-Jacques Geoffroy. This is accepted and agreed unanimously.

2— Appointment of the Treasurer

There is one candidate proposed - Monique Nguyen Duy - Jacquemin. This is accepted and agreed unanimously.

3— Election, by the Executive Committee, of the President and Vice-President

J.J. Geoffroy outlines the expected duties of the President:

- Ensure that the work of the Secretary and Treasurer is proceeding satisfactorily
- Produce a short report on the workings of the Society (moral report of the President)
- Help with the steering of the Society
- Manage the meetings

It is also necessary to change the address of CIM for tax purposes. The Museum can remain the administration address but an official one will be needed.

J.J. Geoffroy also informs Council that Henrik Enghoff has requested not to be President.

Zoltán Korsós proposes John Lewis for president and this is seconded by Rowland Shelley. It is agreed unanimously and John Lewis accepts the position.

It is agreed unanimously that Michelle Hamer be elected Vice President and she also accepts.

4— Next Council Meeting

The maximum period between meetings is officially 1 year. It would be most logical to hold the meeting before the production of the Bulletin so this is set as April 2003.

The next meeting of the General Assembly should be during the next International Congress in Bergen and it is requested that Bjarne Meidell ensure that there is time for this during the programme.

5— Miscellaneous questions

2008 Congress. John Lewis asks about the status of the Görlitz Congress. This cannot be confirmed as a definite venue until the next Congress but 'informally' it should be considered as formal. J.J. Geoffroy will write to W. Xylander explaining this.

The Council Meeting is closed at 19h15 (7:15PM)

President / Le Président

John G. E. Lewis

General-Secretary / Le Secrétaire-Général

Jean-Jacques Geoffroy

13th International Congress of Myriapodology

Bergen, NORWAY, 2005

ORGANISER BJORNE MEIDELL

UNIVERSITETET I BERGEN

The congress in Bergen is planned for the last week of July (25th - 30th) 2005 with an informal gathering on Sunday 24th. One day excursion is planned for Wednesday the 27th, "Norway in a nutshell" a trip by train, boat and bus covering mountains, valleys and fiord.

For Accommodation and meals, Transport, WORKSHOPS, PROCEEDINGS, COSTS, CONFERENCE TOURS and any other topics, please carefully check further documents and circulars sent by the organisers

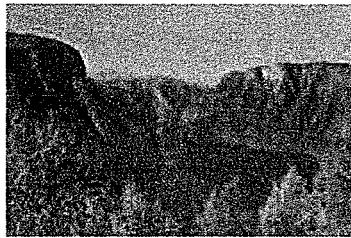

Organising Committee
Bjarne Meidell, Contact: e-mail:
bjarne.meidell@zmb.uib.no
fax: 00-47-5558-9677
phone: 00-47-5558-8280

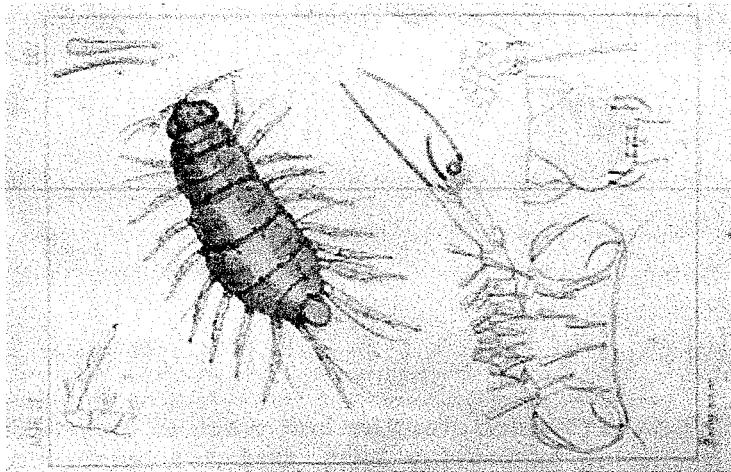

The site map for the 13th International Congress of Myriapodology is on
web-page: <http://www.uib.no/myria2005>

Norway in a Nutshell

We look forward to seeing you at Bergen,
NORWAY in 2005!!!!

CD-ROM pour l'ICONOGRAPHIE des MYRIAPODES
Groupes de myriapodes et onychophores actuels et fossiles
Fichier iconographique historique de P.A. Remy
An ILLUSTRATED CD-ROM for MYRIAPOD ICONOGRAPHY
Myriapod and Onychophoran groups / Historical P.A. Remy's file

by Fabrice MÉRAL

French

L'architecture d'un CD-ROM iconographique sur les myriapodes et les onychophores fut proposé et réalisé par F. MERAL pour le MNHN, Paris suite à sa validation par M. NGUYEN DUY-JACQUEMIN pour les POLYXENIDA & J.-J. GEOFFROY pour tous les autres groupes. Qu'ils soient ici remerciés pour leurs encouragements et précieux conseils.

Il sera à terme la version numérisée des fichiers iconographiques du MNHN constitués de planches reprenant par espèce l'ensemble des illustrations disponibles sur les taxa MYRIPODA et ONYCHOPHORA de LINNE à nos jours.

Il se présente sous la forme synthétique de deux ensembles de fichiers à structures symétriques et ordonnées dans une arborescence comptant pour l'heure plus de 300 dossiers et sous dossiers. L'organisation suivie est celle des principaux groupes Linnéens (Classes, Ordres, Familles, Genres) rangés en leur sein par ordre alphabétique pour en rendre la consultation plus efficace et intuitive.

Le premier représente actuellement près de 900 fichiers textes au format WORD. Ils donnent un nom valide (*Genre espèce Descripteur, date de description*) et présente soit la totalité des images associées soit pour en limiter le temps d'ouverture du fichier une simple sélection représentative laissant à chaque utilisateur la possibilité de faire sa propre composition imprimable ainsi que les modifications souhaitées (commentaires, réactualisation) en fonction de ses besoins.

Le second est composé à ce jour de plus de 900 fichiers images au format JPEG. Ils proposent des illustrations (assorties de leurs légendes et références bibliographiques) de dimensions maximales 20 x 28 cm imprimables en paysage sous réserve du respect de la propriété intellectuelle et de la possession de logiciels ad hoc de retouche d'images. Les possibilités de modifications étant plus étendues sur ces derniers et les précédents étant plus standards les deux ne sont donc pas redondants mais complémentaires.

En outre 5 inventaires des espèces proposés par J.J. GEOFFROY au format RTF ont été joint pour les taxa suivants : CHILOPODA, DIPLOPODA, PAUROPODA, SYMPHYLA et ONYCHOPHORA. Les taxa fossiles † et/ou d'affinités encore incertaines ° ont été respectivement placés en tête et en dehors des actuels afin de les distinguer. Des liens hypertexte ont été insérés entre l'inventaire et les fichiers WORD pour le groupe des POLYXENIDA.

La réalisation d'un CD-ROM illustrant le fichier iconographique historique du professeur P.A. REMY fut proposé et effectué par F. MERAL pour le MNHN, Paris sous l'impulsion de J.-P. MAURIES et de J.-J. GEOFFROY. Qu'ils soient ici remerciés tous deux pour leurs encouragements et conseils avisés !

Il est la version numérisée du fichier de P.A. REMY constitué d'environ 600 planches parfois recto-verso reprenant par espèce l'essentiel des publications (texte et iconographie) sur le taxon PAUROPODA entre 1902 SILVESTRI et 1962 REMY.

Il se présente sous la forme synthétique de 630 fichiers images noir et blanc, au format JPEG, de dimensions maximales 20 x 28 cm et imprimables en format paysage.

Ces derniers sont rassemblés dans une arborescence de 50 dossiers et sous-dossiers suivant l'organisation Linnéenne classique des principaux groupes (Ordres, Familles, et Genres) classés par ordre alphabétique pour en rendre la consultation plus efficace et intuitive.

Les taxa fossiles † et/ou d'affinités encore incertaines ° ont été respectivement placés en tête et en dehors des actuels afin de les distinguer pour tenir compte de leur statut particulier.

La vocation de cet outil est triple :

En premier lieu, constituer une sauvegarde réactualisable du patrimoine culturel et scientifique qui s'y trouve rassemblé sous la forme d'un support ergonomique !

Dans un second temps, permettre la plus large diffusion possible de la somme des connaissances qu'il représente notamment mais sans exclusive pour la recherche !

Enfin, et c'est d'une certaine façon la plus ambitieuse, relancer l'étude de ces groupes passionnantes voire susciter de nouvelles carrières, entre autres, dans cette branche de la systématique.

English

The architecture of the current CD-ROM has been suggested and implemented by F. MERAL for the MNHN, Paris following the contribution of M. NGUYEN DUY-JACQUEMIN for the POLYXENIDA & J.J. GEOFFROY for other groups. Let us thank them here for their encouragement and precious advice.

At the end this will be the numerized version of the MNHN iconographic files, constituted with plates taking again by species the available illustration concerning the MYRIPODA and ONYCHOPHORA taxa from LINNAEUS to date.

It appears in the synthetic form of two groups of files with symmetrical structures and arranged in a tree form counting more than 300 folders and sub-folders each. The chosen organisation is that of the main Linnaean groups (Classes, Orders, Families, and Genera) listed by alphabetical order to make the consultation more efficient and intuitive.

The first one currently represents nearing 900 text files in WORD format. They give a valid name (*Genus species* Describer, description year) and present either the totality of the associated pictures, or to limit the opening time of each file, a representative sample allowing the user to do his own printable plate composition as well as the wished modifications (remarks, updating...) according to his needs.

The second includes until now by more than 900 picture files in JPEG format. They propose illustrations (coming along with their caption and bibliographic references) with a maximum size of 20 x 28 cm, printable in landscape format subject to intellectual property and the ownership of an ad hoc pictures retouching software. The possibilities of modifications being more expanded on these last ones and the previous ones being more standard, both of them are thus not redundant but complementary.

Apart from these, 5 checklists of species proposed by J.J. GEOFFROY in RTF format are joined for the following taxa : CHILOPODA, DIPLOPODA, PAUROPODA, SYMPHYLA and ONYCHOPHORA. The fossils taxa (marked "†") and/or of still uncertain affinities (marked "○") have been respectively placed on the top and out of the living ones. Hypertext links have been inserted between the checklist and the word files in the POLYXENIDA section.

The making of an illustrated CD-ROM on Prof. REMY's historical file has been suggested and realized by F. MERAL for the MNHN result of the impulsion of J.-P. MAURIES and J.-J. GEOFFROY. We would like thank them here for their encouragement and valuable advice !

It is the numerized version of the P.A. REMY's work, which contains about 600 plates sometimes recto-verso taking afresh by species the greater parts of the publications (text and iconography) written on the taxon PAUROPODA between 1902 SILVESTRI and 1962 REMY.

It is presented in the synthetic form of 630 black and white picture files, in JPEG format, with a maximal size of 20 x 28 cm and printable in landscape format.

These last ones are gathered in a tree-form of 50 folders and sub-folders following the classical Linnaean organization of the main groups (Orders, Families, and Genera) sorted by alphabetical order to make the consultation more efficient and intuitive.

The fossil taxa (marked with a "†") and/or of still uncertain affinities (marked with a "○") have been respectively placed on the top and out of the living ones to distinguish them and keep into account their particular status.

The vocation of this tool is threefold :

First, to create an updateable backup of the cultural and scientific heritage which is to be found there collected under the form of an user friendly way.

Second, to allow the largest possible spreading of all the knowledge sum which it represents notably, but without exclusiveness, for the research !

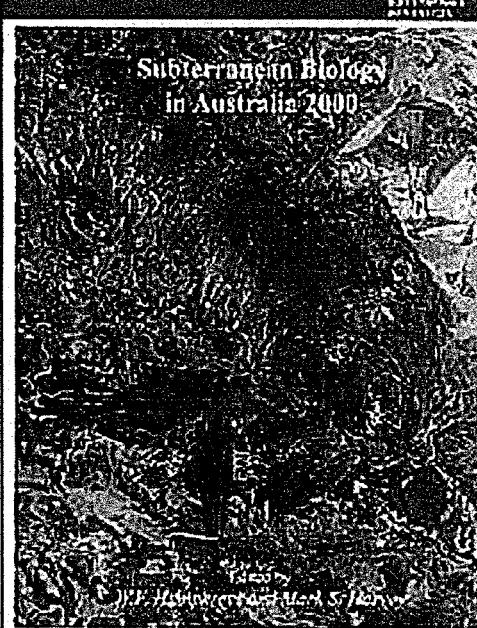

Finally and in a way the most ambitious one, to relaunch the study of these groups and maybe to arouse new careers, among others, in this systematic branch.

Studies on Soil Fauna in Central Europe

Proceedings of the 6th Central European Workshop on Soil Zoology

held in České Budějovice, Czech Republic, April 23-25, 2001

Edited by

Karel Tajovský, Vladimír Balík & Václav Pižl

Institute of Soil Biology, Academy of Sciences of the Czech Republic,
České Budějovice, Czech Republic

Content

Testate amoebae (Protozoa) in soils of restored flowery meadows in the Bílé Karpaty Mts. (Czech Republic) (V. Balík) ♦ *Uropoda orbicularis* (Müller, 1776) (Acari: Uropodina) as an example of a mite adapted to synanthropic habitats (J. Błoszyk, D. Bajerlein, A. Skoracka, R. Bajaczyk) ♦ Succession of epigaeic spider communities in substitute birch forests between 1988 and 1998 (V. Bryja, E. Kula) ♦ Copepoda from forest floor habitats in Vienna (E. Christian) ♦ Influence of antimicrobial feed additives on nematode community structure: Primary field experiment (E. Dworska, K. Makulec-Ilieva) ♦ Potential sources of polyunsaturated fatty acids for saprophagous soil invertebrates (D. Elhottová, J. Frouz, V. Křišťálek, A. Lukešová, A. Nováková, J. Tříška) ♦ The influence of water regime on soil-surface fauna in floodplain forest (H. Fojtová) ♦ Fauna of soil nemabodes and other soil micro-mesofauna in spruce clearings in the Šumava Mts., Czech Republic (L. Háněl) ♦ Short-term effects of grass mixtures on nematodes inhabiting agricultural soil in the Bílé Karpaty Mts., Czech Republic - a preliminary study (L. Háněl) ♦ Weevils (Coleoptera, Curculionoidea) as a part of the oak-hornbeam forest epigaeon (M. Holecová, J. Sukupová) ♦ Abundant and frequent oribatid mites (Acari: Oribatida) in different plots on two meadows (J. Hubert) ♦ What do we know on terrestrial Trichladida (Turbellaria) from the former Czechoslovakia? (V. Košel) ♦ Introductory monitoring of Collembola (Hexapoda) in the Pieniny Mts. (Western Carpathians) (L. Kováč, J. Magdová, D. Miklisová) ♦ Distribution of *Eukoenenia spelaea* (Peyerimhoff, 1902) (Arachnida, Palpigradida) in the Western Carpathians with remarks on its biology and behaviour (L. Kováč, A. Mock, P. Luptáčik, J.G. Palacios-Vargas) ♦ The oribatid mites in the bird feathers (D.A. Krivolutsky, N.V. Lebedeva) ♦ Lycosid spiders (Araneae) of the oak forests of the Malé Karpaty Mts. near Modra (Z. Krumpálová, D. Bartoš) ♦ Soil Oribatida (Acarina) communities across a land depression in an arable field (P. Luptáčik, D. Miklisová) ♦ Structure of pioneer communities of mesostigmatid mites (Arachnida, Acari) at initial stages of ecological succession on coal mining (G. Madej, J. Błoszyk, M. Stachowiak, R. Bajaczyk) ♦ Genus *Melogona* Cook, 1895 (Diplopoda: Chordeumatida: Chordeumatidae) in Slovakia (A. Mock, K. Tajovský) ♦ Mycotic

flora in vermicultures and intestines of *Eisenia andrei* (A. Nováková, V. Pižl) ♦ Earthworm communities in spruce forest soils - effects of some natural and anthropogenic factors (V. Pižl) ♦ New approaches to the trophic structure of soil ecosystems (D. Pokarzhevskii, N.M. Van Straalen, D.P. Zaboev) ♦ Impact of boric acid on Collembola, Protura and Pauropoda in a mountain elm forest in the Šumava National Park, Czech Republic (J. Rusek) ♦ The seasonal abundance of Mesostigmata (Acari) in compost (A. Skoracka, M. Skoracki, J. Błoszyk, M. Stachowiak) ♦ The structure of dominance and frequency of Mesostigmata (Acari) in compost (A. Skoracka, M. Skoracki, J. Błoszyk, M. Stachowiak) ♦ Development of oribatid mite fauna (Acari, Oribatida) in a sedimentation tank (P. Skubala) ♦ The excrement analysis - the useful tool for the biological and autecological studies in soil zoology (J. Smrž) ♦ Ontogeny of tarsal glands in *Reticulitermes lucifugus* (Isoptera: Rhinotermitidae) (J. Šobotník, F. Weyda) ♦ Changes of oribatid mite communities (Acari: Oribatida) during primary succession on colliery spoil heaps near Sokolov, North-West Bohemia, Czech Republic (J. Starý) ♦ Collembola of the hydrogenic soils of Biebrza River valley (M. Sterzyńska) ♦ The soil mites Gamasina (Acari, Gamasida) in the Carpathian beech forest: abundance, spatial organization and influence of two environmental factors (P. Szymkowiak) ♦ Soil macrofauna (Diplopoda, Chilopoda, Oniscidea) in a pine forest disturbed by wildfire (K. Tajovský) ♦ Ciliophora nad Rhizopoda in soil, leaf-litter and mosses of oak-hornbeam forests in the Malé Karpaty Mts. (Western Slovakia) (E. Tirjaková, M. Mrva, D. Hlubíková) ♦ Contribution to the knowledge of vertical distribution of soil macrofauna (Chilopoda, Oniscidea) in floodplain forest (I.H. Tuř) ♦ Development of millipede assemblages in floodplain forests after summer flood (J. Tuřová) ♦ The impact of inundation on floodplain forest Brachycera (Diptera) associated with oak logs (M. Urbánková, J. Schlaghamerský) ♦ Scientific digital photography and its application to modern zoological research (F. Weyda) ♦ Ontogeny of fat body in *Prorhinotermes simplex* (Isoptera: Rhinotermitidae) (F. Weyda, J. Šobotník, J. Nebesářová) ♦ The influence of an urban agglomeration on the dispersion and the abundance of the mites of the suborder Uropodina (Acari: Mesostigmata) in Poznań (D. Krysiak, J. Błoszyk, R. Bajaczyk)

Central European Workshops on Soil Zoology (CEWSZ)

Ceske Budejovice, Czech Republic

The **6th Central European Workshop on Soil Zoology** was held in Ceske Budejovice on April 24-25, 2001. The participants, who came from Austria, the Czech Republic, Germany, Poland, Russia and Slovakia, presented 20 oral and 29 poster contributions concerning the soil zoological research not only in Central Europe, but also in Russia and Nigeria. Besides contributions, diverse topics of soil zoology, ecology, faunistic as well as possible co-operation among the zoologists have been discussed. Increasing number of students and young scientists was characteristic for this meeting. Thus the 6th CEWSZ continued in the tradition of previous five meetings held in Ceske Budejovice from 1992 (1st - May 14-15, 1992; 2nd - September 30-October 1, 1993; 3rd - October 3-4, 1995; 4th - April 23-24, 1997, 5th - April 27-30, 1999). As the two previous workshops, also the CEWSZ-6 was complemented with the proceedings-book (*) published by the Institute of Soil Biology. It involves 39 contributions again including several papers dealing with myriapod invertebrates.

After the regular two-year period, the next **7th Central European Workshop on Soil Zoology** is under preparation for the April 14-16, 2003, traditionally held in Ceske Budejovice. The main theme of the CEWSZ-7 is "The impact of human activities on soil fauna".

Looking for soil animals in UK (April 2003). Zoltan, Karel, John and Helen in British Delamere Forest (Photo JJG & CIM)

BRITISH MYRIAPOD & ISOPOD GROUP

Annual Field Meeting to be held at Reaseheath College, Cheshire

Thursday 24th – Sunday 27th April 2003.

Incorporating an indoor colloquium at Manchester Museum on Friday 25th April.

A Celebration of the last 50 years of Myriapodology

With Special recognition of the contributions of J. Gordon Blower and E.H. Eason

We were very pleased that we had invited speakers for the colloquium in Manchester, Wolfgang Dohle (Freie Universität, Berlin, Germany) and Marzio Zapparoli (Università della Tuscia, Viterbo, Italy). There were several other speakers, including colleagues from overseas such as Jean-Jacques Geoffroy (France), Erwin Meyer (Austria), Stylos Simaiakis (Greece) and Zoltán Korsós (Hungary) and the UK (John Lewis). Topics included ecological, taxonomic and developmental aspects of centipedes and millipedes. There was also a poster display and some exhibits. And a lot of friendly contributions by Ted and Gordon's friends, colleagues, students, families, relatives...

The proceedings of the meeting will be published in a special issue of the BMIG Bulletin.

Myriapodology in the New Millenium

Proceedings of the 12th International Congress of Myriapodology

To be published in August 2003 as a Supplementary Volume to *African Invertebrates* (formerly *Annals of the Natal Museum*).

Distribution will be to approximately 250 institutions, all congress delegates and additional copies will be available for \$30.

27 manuscripts have been accepted for publication.

Approximately 300 pages will be published

Reprints will be provided in the form of PDF files only.

Progress in Studies on Myriapoda and Onychophora

WYTWER JOLANTA & GOLOVATCH SERGEI I. (EDS) - 2001— Fragmenta faunistica, Warszawa, 43 (Supplement 2000). XIV+396 pp.

The present volume puts on record the bulk (33 papers by 52 authors) of the contributions delivered at the 11TH INTERNATIONAL CONGRESS OF MYRIAPODOLOGY, held at Bialowieza, Poland on 20-24 July 1999. This book is a landmark of recent progress achieved in studies on Myriapoda and Onychophora, with the papers distributed between the following general topics:

Evolution, Phylogeny and Comparative Morphology (9 contributions); Anatomy, Biology and Physiology (10 contributions); Taxonomy and Collections (4 contributions); Geography, Faunistics and Ecology (10 contributions)

Origin of the Hexapoda

Th. DEUVE (Ed) - 2001— Annales de la Société Entomologique de France, Special Issue n°37, 1/2, 340 pp.

This special issue of the Annales de la Société Entomologique de France is devoted to the Proceedings of the Colloque International sur l'origine des Hexapodes, held in Paris (France) on 8-9 January, 1999. New trends and data on anatomy, genetics, ontogeny, paleontology, molecular biology and phylogenetic relationships between Crustaceans, Myriapods and Insects

Amazonian Arachnida and Myriapoda

J. ADIS (Ed) - 2002— Pensoft Series Faunistica, n°24, 590 pp.

ISSN 1312-0174, ISBN 9546421189, 297x195, photos, graphs, index, bibliography. In English, Hdb. USD78 For more information on the book, please look at:

by Jeekel, Hoffman, Shelley, Sierwald, Kiser & Golovatch, 2001

A Synopsis of the North American Centipedes of the Order Scolopendromorpha (Chilopoda)

by Rowland M. Shelley

*A Synopsis of the North American
Centipedes of the Order
Scolopendromorpha (Chilopoda)*

The order Scolopendromorpha contains the largest members of the class Chilopoda, with individuals of the aptly named *Scolopendra gigantea* L. attaining a length of over 12 inches (300 mm). Essentially worldwide in occurrence, but most diverse and abundant in tropical and semitropical regions, scolopendromorphs are often the dominant invertebrate predators in terrestrial ecosystems. Endowed with powerful fangs and a predaceous习性, so little known, the larger members are often implicated in painful encounters with humans, and in parts of the tropics constitute a public health problem of some importance.

A Synopsis of the North American Centipedes of the Order Scolopendromorpha (Chilopoda) is the first comprehensive treatment of the North American fauna. In all, 27 species are recognized and distributed among nine genera and three families, and one generic and 23 species names are newly relegated to synonymy. Thousands of preserved specimens have been examined, including recent types of most newly proposed synonyms. The author has personally encountered the majority of our species alive under environmental conditions as field expeditions across the continental United States and Canada.

Keys are provided to taxa at all levels, and taxonomic characters are fully illustrated. With this reference at hand, any North American naturalist working with scolopendromorphs should experience little difficulty arriving at reliable determinations. Detailed distribution maps, based on both reliable literature records and collection localities of preserved samples, provide precise images of the ranges as currently known. Ecological and ethological information is summarized for species where such exists. An extensive bibliography of 2,120 titles represents virtually the entire literature base relevant to the continental fauna.

Dr. Rowland Shelley is Curator of Terrestrial Invertebrates at the North Carolina State Museum of Natural Sciences. He has authored over 100 scientific papers on the classification and distribution of millipedes, centipedes, scorpions, and beetles, in which over 180 new species and subspecies are described.

Amazonian Arachnida and Myriapoda

Identification keys to all classes, orders, families, some genera,
and lists of known terrestrial species

Edited by
Joachim Adis

Scientific Readers to the Editor: *R. Desmond Kime & Sergei I. Golovatch*

Amazonian primary forest near the border to Surinam (photo: J. Adis; arthropod drawings: Ricardo H.M. Figueroa; design: Elke Bustorf).

students of the Post-Graduate Courses in Entomology and Ecology of the National Institute for Amazonian Research (INPA) and the University of Amazonas (UA) in Manaus/Brazil. Lack of any 'Guide Book' for Amazonian Arachnida and Myriapoda may explain, at least in part, the few local taxonomists working on these groups.

Most taxonomic literature on Neotropical Arachnida and Myriapoda is strictly descriptive, keys in translated and accepted textbooks are restricted to the higher taxa, and the first introductions to Amazonian arthropods refer to specific sampling sites and are mainly devoted to insects.

On the other hand, taxonomic knowledge of Amazonian Arthropoda has become greatly improved due to investigations of the editor during the last two decades, cooperatively between INPA and the Tropical Ecology Working Group at the Max-Planck-Institute for Limnology in Plön/Germany. Together with world-leading taxonomists, a first attempt is made:

- to provide a book with illustrated keys for neophytes and anyone interested in Neotropical Arachnida and Myriapoda.
- to supply a source of references on the actual taxonomic knowledge of Amazonian Arachnida and Myriapoda.
- to introduce and recommend approved sampling techniques developed for terrestrial arthropods in the Neotropics.
- to stimulate education and research in Neotropical Arachnida and Myriapoda.

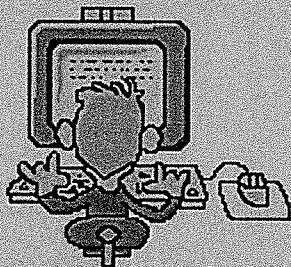

Sujets de recherches en cours ou en projet

Topics being dealt or scheduled in the world

Myriapoda & Onychophora

This list is the sum of information sent by the scientists who are working in any kind of matter dealing with myriapods or onychophorans in the world. It is to be completed or improved permanently, in accordance with the informations provided yearly.

Cette rubrique analytique est la somme des renseignements transmis par les chercheurs travaillant dans tous les domaines liés aux myriapodes ou aux onychophores. Elle doit faire l'objet d'une mise à jour régulière et permanente, en fonction des nouvelles informations reçues chaque année.

Si vous connaissez d'autres sujets traitant des myriapodes ou des onychophores, envoyez-nous vos informations, merci.

Other ones ? If you know any other topic dealing with myriapods and/or onychophorans studies, please send informations to the Centre International de Myriapodologie : millicim@mnhn.fr

MATTERS BEING DEALT OR *SCHEDULED SUJETS ACTUELLEMENT ABORDÉS OU *EN PROJET [2003 - 2004]

A- NOMENCLATURE

JEEKEL & MINELLI, *Nomenclator Chilopodorum*.
SHELLEY, GOLOVATCH, SIERWALD, *Nomenclator Diplopodorum*.

B- HISTOIRE / HISTORY

DEMANGE, Myriapodes de l'expédition Bonaparte en Egypte.

KANIA, *Historical studies on myriapodology in Poland.

STAGL, historical investigations (Natural History Museum of Vienna)

C- INFORMATION & COMMUNICATION

MONGE NAJERA, *education about Onychophorans using Internet.

GEOFFROY, website of the CIM, myriapod and onychophoran galleries.

GEOFFROY, website of the Société Internationale de Biospéologie [SIBIOS]

LEBRETON, bibliography on cave myriapods.

SHEAR, discussion lists: myriapoda, onychophora... on yahoogroups.com

D- BASES DE DONNEES / DATA BASES / DOCUMENTATION

DEMANGE, Taxonomic database of myriapods, database on 4D software [> 35000 records].

GEOFFROY, biblio.milpath, bibliographic database running on 4D-bibliomacpc software.

GEOFFROY, Fauna Gallica Myriapoda, taxonomic and biogeographic biodiversity of the French myriapod fauna (Chilopoda, Diplopoda, Pauropoda, Symphyla). Relational database running on 4D-software.

JEDRYCZKOWSKI, * biodiversity in East Carpathians, Poland.

KHANNA, *Preparation of a website and database on Scolopendrid types.

LOCK, database of Belgian Chilopoda, development and management.

MAURIES, GEOFFROY, NGUYEN DUY - JACQUEMIN fichier iconographique myriapodes & onychophores. Iconographic file upon myriapods and onychophorans.

MEIDELL, DJURSVOLL databases on myriapodological literature and species names.

ROSENBERG, SPELDA & VOIGTLÄNDER, database on chilopod literature of structure, function, physiology, ecology, behaviour, evolution.

SPELDA, Database on millipede records which connects literature and species names.

STOEV, Data base of the synonym names in the class Chilopoda. *Data base of the centipedes (Chilopoda) of Europe.

E- STRUCTURE et PHYSIOLOGIE / STRUCTURE & PHYSIOLOGY

E1- GENERALITIES, ANATOMY, MORPHOLOGY

ARTHUR, segment number variation in Geophilomorpha: developmental, genetic and ecological aspects.

DESCAMPS, FABRE, influence des métaux lourds et des toxiques sur les Myriapodes.

FODDAI, homologies and evolutionary trends in segmental patterns of chilopod antennae.

FONTANETTI, morphology, cytogenetics and histochemistry in Brazilian diplopods.

HANNIBAL, sternal pores and systematics of euphoberiid diplopods (Carboniferous).

HILKEN & ROSENBERG, Maxillary organs of Scutigera, maxillary nephridium of *Lithobius*.

KOCH, *Formation of body cavities and nephridia in myriapods and primarily wingless hexapods.

*Functional morphology of the Hexamerocerata (Pauropoda).

MINELLI, organisation métamérique des Myriapodes (hétérochronies, phylogénèse).

PASS, Anatomy of Symphyla.

PENTEADO, SILVA & BOCCARDO, physiology, circadian rythms, metabolism and respiration of Brazilian millipedes.

RUHBERG & BARTOLOMAEUS, *Ultrastructure and anatomy of the nephridial system in Onychophora.

*Zum Schicksal der Embryonalen coelomraume bei Onychophora.

WILSON, millipede skeletonmuscular anatomy.

E2- SENSORY ORGANS

ERNST, ROSENBERG, Raster- und transmissionelektronikmikroskopische Untersuchungen der *Sensilla coelonica* auf den Maxillipeden der Chilopoden. Cuticullarsensillen auf den Antennen des Chilopoden.

FODDAI, antennal sensilla in Chilopoda.

ROSENBERG, ultrastructure of cuticular sensillae on maxillipeds of Chilopoda.

ROSENBERG & MÜLLER, Complex eyes of *Scutigera*.

E3- DIGESTION, ASSIMILATION

KOCH, feeding mechanisms in myriapods and primarily wingless hexapods.

SUSTR, digestive enzymes in millipedes ; presence of saccharolytic enzymes in the gut of millipedes.

E4- RESPIRATION, METABOLISM

GROMYSZ-KALKOWSKA, respiration and metabolism of Diplopoda.

HILKEN & ROSENBERG, Tracheal system of Chilopoda.

PENTEADO, oxygen uptake related to temperature and photoperiod in Brazilian *Oxidus gracilis* (Polydesmida)

SUSTR, temperature dependence of respiration rate and behaviour of millipedes in artificial temperature gradient.

E5- CIRCULATORY SYSTEM, HEMOLYMPH , IMMUNOLOGY

BROCKMAN, hemocytes of *Scutigera coleoptrata*.

BURMESTER, Structure, function and evolution of arthropod hemocyanins.

GROMYSZ-KALKOWSKA, immunology of Diplopoda.

HILKEN & ROSENBERG, Pericardial cells and hemocytes of Chilopoda.

MAKSIMOVA, hematocytology of soil diplopods.

NEVERMANN, BROCKMANN & HILKEN, hemocytes of *Scutigera*.

PASS & WIRKNER, morphology and evolution of circulatory organs in Chilopoda.

E6- GLANDS, SECRETION, EXCRETION, COXAL ORGANS, VENOMS

HILKEN & ROSENBERG, Epidermal glands of Chilopoda.

HOPKIN, defensive secretions of Centipedes.

HUTH, chemical ecology of millipedes : chemical analyses of defensive secretions and chemotaxonomical approach to systematics.

MASHBERG, biological function of defensive secretions in millipedes.

ROSENBERG & MÜLLER, Head glands of Chilopoda.

TANABE, defensive secretions in Japanese millipedes.

WEYDA, *eversible vesicles in myriapods.

E7- GENITAL TRACTUS: see REPRODUCTION & DEVELOPMENT

E8- BIOCHEMISTRY, MOLECULAR BIOLOGY, HEAVY METALS , RADIATIONS

BOND, Rhinocricidae, molecular data for systematics.

DESCAMPS, effect of pollution by heavy metals on myriapods communities.

DESCAMPS, FABRE, influence des métaux lourds sur la physiologie et le développement de Myriapodes.

GARCIA RUIZ, *ecotoxicology of Chilopoda and Diplopoda.

MAKSIMOVA, radio & eco-biology of soil diplopods ; accumulation of radionuclides ; monitoring of radioactive contamination.

NEFEDIEV, *Diplopoda as bioindicators on radioactive contamination in Russia.

RUHBERG, GLEESON & DIANNE, taxonomy and phylogeny related to DNA sequences in Peripatopsidae.

E9- CYTOGENETICS

BROCKMAN, hemocytes of *Scutigera coleoptrata*.

FONTANETTI, morphology, cytogenetics and taxonomy of Brazilian diplopod species, karyotypes.

KANIA, karyotypes and immunology of Diplopoda.

MAKSIMOVA, hematocytology of soil invertebrates.

E10- MICROBIOLOGY

FRUEND, soil microflora and myriapods.

KANIA, microbiology in Diplopoda.

F- REPRODUCTION & DEVELOPMENT

F1- GENITALIA , GENITAL TRACTUS, SEXUAL TRAITS

BROCKMAN, Oviparous onychophorans (Peripatopsidae) from Tasmania.

PRUNESCU C & PRUNESCU P, comparative histology of the male genital system in the order Scolopendromorpha. Genital system of some Anopsobiidae from the collection of Museum Vindobonensis.

F2- EMBRYOLOGY, ONTOGENESIS

ARTHUR, the ecological genetics and developmental genetics of segment number variation in Geophilomorpha.

BONATO, Mecistocephalidae, ontogenetic mechanism of segmentation.

DAVID, GEOFFROY, CELERIER & VANNIER, life-history, demography and ecophysiology of *Polydesmus angustus*. Responses of millipede populations to ongoing climatic changes.

FODDAI, MINELLI & LEWIS, Development and segmentation in centipedes.

IORIO, Reproduction and behaviour of Scolopendromorphs.

SERRA, reproduction et développement de quelques Lithobiomorphes.

TAIT, Egg shell formation in oviparous onychophorans. Embryonic development in ooviviparous onychophorans

F3- PARTHENOGENESIS

ADIS, GOLOVATCH, parthenogenesis in neotropical Pyrgodesmidae (Polydesmida).

ENGHOFF, geographical parthenogenesis in *Nemasoma varicorne*.

ENGHOFF, JENSEN & PARKER, Molecular study of parthenogenesis in *Nemasoma varicorne*.

F4- PERIODOMORPHOSE

SAHLI, Diplopodes, périodomorphose.

F5- GENETICS

ARTHUR, the ecological genetics and developmental genetics of variation in segment number (Chilopoda).

TAIT, Genetic substructuring of populations of onychophorans.

G- ECOLOGY & BEHAVIOUR

G1- ETHOLOGY

MAHSBERG, ethology of diplopods of Ivory Coast.

PENTEADO, physiology and thermic adaptation in Brazilian diplopods.

REIP, breeding and cultivation, behaviour of millipedes.

SAHLI, migrations en masse. Mass migrations.

WILSON, kinematics of millipede locomotion.

G2- TOXICOLOGY, DEFENCES, VENOMS

HOPKIN, defensive secretions of Centipedes.

HUTH, chemical ecology of millipedes.

MASHBERG, biological function of defensive secretions in millipedes.

G3- ECOLOGY: POPULATIONS & COMMUNITIES; ECOPHYSIOLOGY

ABROUS-KHERBOUCHE, Myriapodes du Parc National du Djurdjura (Algérie).

ADIS, Adaptations of terrestrial arthropods to foodplains and canopy in Amazonia and the Pantanal of Brazil.

ARTHUR, the ecological genetics and developmental genetics of variation in segment number (Chilopoda).

BLACK, ecological damage by the Black Portuguese millipede.

BOURDANNE KADEBE, Influence de l'anthropisation sur le peuplement de diplopodes de la région d'Abidjan, Côte d'Ivoire.

BUENO VILLEGRAS, study on millipedes in an altitudinal gradient (Mexico).

DAVID, GILLON, leaf litter consumption by *Glomeris marginata* in Mediterranean forests.

DAVID, GEOFFROY, CELIERIER & VANNIER, démographie & écophysiologie de *Polydesmus angustus*. cohort-splitting in *Polydesmus angustus*.

ENGEL, faunal comparison of spruce, beech and mixed stands forests in Bavaria.

FABRE, influence des métaux lourds sur les communautés de Myriapodes.

FRUEND, association between *Lithobius forficatus* and woodlice in compost heaps.

GARCIA RUIZ, écologie de populations et communautés de chilopodes et diplopodes de la Péninsule Ibérique.

GEOFFROY, population ecology and communities (Diplopoda, Chilopoda) in temperate forest (soil) : massif de Fontainebleau, Normandie (France).

HAMER, conservation of forest millipedes in Kwazulu-Natal (South-Africa).

HORNUNG, spatial & temporal patterns of diplopod populations in different habitats. Establishment of introduced/exotic soil macrofauna species.

JEDRYCZKOWSKI, *fauna of town green in Viet nam.

KHANNA, ecological studies on the scolopendrids of India, specially in conservation areas.

KIME, analysis of ecological preferences and community composition of diplopods in the Atlantic zone of Europe. *Biogeography and ecological preferences of Spanish Diplopoda.

KONDEVA, Millipedes populations in litter of xerothermic oak forests in Bulgaria.

Phytosaprophagous millipedes (Diplopoda) in a recreation zone near Sofia.

KOS, Influence of forest management on population dynamic and species diversity of centipedes.

LESNIEWSKA, Centipede communities of forests in Poland.

LOCK, Chilopoda of the grindbanks of the Meuse ; communities in the woodlands of Flanders.

MAHSBERG, relations of millipedes to predators and parasitoids, chemical ecology of tropical millipedes.

MAKSIMOVA, radioecology & biology of soil invertebrates ; monitoring of radioactive contamination.

MEYER, communities of soil animals ; soil forming process along an altitudinal transect (central Alps on bedrocks , Stubai Alps) ; *Millipedes as colonizers in a glacier retreat area (Ötztal Alps).

MIKHALJOVA, Diplopoda of Russian Far East and Siberia.

MONGE-NAJERA, A catalogue of habitats of all Onychophoran species of the world.

NEGREA, BOITAN, Chilopodes des forêts de Roumanie.

OZANOVA, population ecology of Diplopoda (Czech Republic), *successional row of floodplain forest.

READ, ecology and taxonomy of Siphonophorida from Brazil.

SAHLI, migrations et déplacements en masse. Mass migrations of diplopods.

SCHMITT, Centipedes and Millipedes of Agrosystems.

SERRA, population ecology of myriapods (Chilopoda, Diplopoda) in Spain.

SPELDA, ecology of myriapods in Germany.

STASIOV, distribution of myriapod communities of the West Carpathians.

SUSTR, Methane production of European millipedes. Anoxia and hypoxia tolerance of soil invertebrates.

TAJOVSKY, Millipedes and Centipedes in flooded and nonflooded ecosystems, in man-impacts habitats (colliery spoil heaps, mountain forests, flooded habitats) - Millipedes in the secondary succession. *Millipedes and centipedes in restored meadows.

TRACZ, Walorisierung der Streu und Bodenfauna, Fauna des Totholzes von Białowieża Urwald.

TUF, population ecology of Chilopoda. Secondary succession of centipede communities after deforestation. Survival under water during flooding.

TUFOVA, millipede communities in floodplain forests, population ecology of millipedes. Secondary succession of millipede communities after deforestation. Survival under water during flooding.

VOIGTLÄNDER, populations and communities of myriapods: German polydesmids.

WYTWER, Chilopoda of different wooded sites of Białowieża forests.

VANNIER, écophysiologie de diplopodes – see DAVID & al.

ZULKA, the influence of shrub encroachment on myriapods of dry grasslands in the Danube floodplain National Park (Austria)

G4- BIOSPELEOLOGY

CONDE , *Pénicillates endogés et cavernicoles : sud de l'Europe, îles de la Méditerranée et de l'Océan Indien.
GARCIA RUIZ, Myriapodes cavernicoles de la Péninsule Ibérique.
GEOFFROY, Diplopodes et Chilopodes cavernicoles de France, et divers pays (*Afrique du Nord, Europe de l'Ouest, Brésil).
GOLOVATCH, *Cave-dwelling Oniscodesmidae from Brasil.
KORSOS, Diplopods in cave fauna in Hungary.

LEBRETON, bibliographie mondiale de la flore et de la faune cavernicole; *bibliographie mondiale des Chilopodes, Diplopodes, Paupropodes et Symphyles souterrains.
MAKAROV, cave-dwelling diplopods of Yougoslavia.
MOCK, Diplopods in Slovak caves.
NEGREA, Chilopodes cavernicoles (Roumanie, Israël, Cuba, Palestine, Venezuela).
SHEAR, Cave-dwelling millipedes.

STOEV, revision of Bulgarian cave chilopods and diplopods with remarks on other Balkan species.

G5- PARASITOLOGY

SPIRIDONOV, Nematoda as diplopod parasites.

H- SYSTEMATICS & FAUNISTICS, BIODIVERSITY

H1- MONOGRAPHIES, FAUNAS, CATALOGUES, CARTOGRAPHY, MUSEOGRAPHY

ABROUS-KHERBOUCHE, Myriapodes du Parc National du Djurdjura (Algérie).
ANDERSSON, the chilopod fauna of Sweden.
BERON & STOEV, types of Chilopoda & Diplopoda in the coll. of Nat. Mus. Nat. Hist. Sofia.
BERG, Distribution Atlases of Dutch centipedes and millipedes.
BONATO, FODDAI, MINELLI, PEREIRA, a catalogue of world Geophilomorpha.
CEUCA-CRISAN & CEUCA, Diplopodes de Roumanie.
DI GIOVANNI, taxonomie & faunistique des diplopodes d'Italie.
ENGHOFF, Fauna Europaea Project, Myriapoda. (Fauna Europaea, www.faunaeur.org).

FLOREZ DAZA, catalogue of Myriapods of Colombia.
FODDAI, PEREIRA, MINELLI, BONATO, a world catalogue of Geophilomorpha.

GEOFFROY, systématique et biogéographie des Diplopodes et Chilopodes de France. Référentiel taxonomique des myriapodes de France.

GRUBER, Diplopoda & *Chilopoda de la région nord-orientale de l'Autriche.

HAMER, South-African Sphaerotheriids.

HOFFMAN, Monograph of Gomphodesmidae, in Das Tierreichs.

IORIO, Chilopod fauna of the Vosges and Lorraine (France).

JEEKEL, Bibliographic catalogue of the Indo-Australian Spirobolida. Bibliographic catalogue of the Paradoxosomatidae. Bibliographic catalogue of the Glomerida.

KHANNA, centipedes of India and Oriental Region (Chilopoda: Scolopendromorpha: Scolopendridae, Cryptopidae).

KHATOON, Chilopoda & Diplopoda of northern areas of Pakistan.

KIME, European millipede atlases. Diplopod fauna of Belgium, Luxemburg and Ardennes. *Publication of data supplied by the late Dr Eason.

KOCOUREK, millipedes of the Czech Republic.

KORSOS, taxonomy and zoogeography of Hungarian millipedes (Fauna Hungariae): identification book.

Korean millipedes. Taiwanese millipedes.

KRAUS, monography of the Diplopoda (Chilognatha) of Peru.

LEE, provisional Atlas of distribution of British millipedes.

LOCK, preliminary Atlas of the Chilopoda of Belgium – checklist of the same.

MAURIES, Millipedes of Asturias & Andalusia (Spain) / Millipedes of Guyanas and West Indies (Martinique) / Diplopodes de Guyane française et des Antilles (Martinique).

MIKHALJOVA, Diplopoda of Russian FarEast & Siberia. *Chilopoda, Paupropoda, Symphyla of Far East.

MINELLI, FODDAI Fauna Europaea Project (Chilopoda: Scolopendromorpha, Geophilomorpha).
MINELLI, FODDAI, PEREIRA, BONATO, a catalogue of world Geophilomorpha.

MOCK, Diplopoda in Slovacia / faunistics, ecology, taxonomy, biospeleology in western Carpathians.

NEGREA, monographie des chilopodes de Roumanie.
NEGREA & ZAPPAROLI, Chilopodes pour "Fauna Palaestina" (Jerusalem).

READ H., catalogue of type species of diplopods in the British (Natural History) Museum of London.

PEREIRA, FODDAI, MINELLI, BONATO, a catalogue of world Geophilomorpha. READ, Catalogue of type species of diplopods in the British Museum.

SCHELLER, Catalogs of Paupropoda and Symphyla of the World. European checklists of Paupropoda and Symphyla.

SCHILEYKO, Scolopendromorpha of Vietnam (part III). - Chilopoda from West Indies (Jamaica, Dominican Republic).

SCHILEYKO & STAGL, Scolopendromorpha in Naturhistorisches Museum Wien (first report).

SHELLEY, synopsis of North American Scolopendromorpha. *Chronological listing of the indigenous Neotropical species of Scolopendra. *Nomenclator Generum et Familiarum Diplopodorum III. Millipedes of Texas.

SHELLEY, FODDAI, BONATO & MINELLI, Catalog of indigenous Neotropical species of Scolopendra. Hawaiian Geophilomorpha.

- DOHLE, Phylogeny of Arthropoda, relationships between hexapods, crustaceans and myriapod groups.
- EDGECOMBE, Systematics of Anopsobiinae (Chilopoda: Lithobiomorpha) of Australia. Systematics of *Haasiella* (Chilopoda: Lithobiomorpha) in Australia. Systematics of *Lamyctes* (Chilopoda: Lithobiomorpha), with particular reference to Australian species.
- EDGECOMBE & GIRIBET, Phylogeny of Chilopoda combining 18S, 28S, 16S and COI sequence data and morphology. Systematics of *Paralamyctes* from South Africa, with a new molecular and morphological phylogeny of Henicopidae.
- EDGECOMBE & HOLLINGTON, systematics of *Henicops* (Chilopoda: Lithobiomorpha).
- ENGHOFF, new species of *Dolichouulus*. Taxonomy and distribution of European millipedes (Fauna Europaea, www.faunaeur.org). Revision of *Pachybolus* and *Peltatojulus*.
- ENGHOFF & GOLOVATCH, Revision of the Canarian *Glomeris alluaudi*-group. Revision of Macaronesian species of *Propolydesmus*.
- ENGHOFF, WILSON & SHULTZ, Molecular phylogeny of Julidae.
- FODDAI, phylogeny & classification of Geophilomorph Centipedes using a cladistic approach; *Centipede phylogeny.
- FONTANETTI, morphology, cytogenetics and taxonomy of Brazilian diplopod species.
- GARCIA RUIZ, *taxonomic et biogéographie des Chilopodes de la Péninsule ibérique.
- GEOFFROY, systématique et biogéographie des Diplopodes et Chilopodes de France, et divers pays (*Afrique du Nord, Europe de l'Ouest, Brésil, Maurice).
- GOLOVATCH, révisions : Asian Paradoxosomatidae and American Pyrgodesmidiae ; *Oniscodesmidiae and pseudonanonellidae from Brazilian caves. - vide SPELDA. Paradoxosomatidae of the World.
- GOLOVATCH & GEOFFROY & MAURIES, Pseudonanonellidae from Brazilian caves, millipedes from China.
- GOLOVATCH, HAMER, Polydesmida from South Africa, with identification keys.
- HAGINO, Taxonomy of Japanese and adjacent areas: pauropods.
- HAMER, Sphaerotheriids of South-Africa; *revision of the genus *Triaenostreptus* (Spirostreptidae).
- HOFFMAN, Tribes and/or genera of Chelodesmidae, Platyrhacidae of Indonesia. *African and Neotropical Spirostreptidae, Xystodesmid genera *Apheloria* and *Nannaria*.
- HOPKIN, *taxonomy of Symphyla and Paupopoda of UK.
- HUTH, defensive secretions : chemotaxonomical approach to systematics (millipedes).
- HUTHER, revision of "common" species of Paupopoda and Symphyla.
- IORIO, Distribution of *Scutigera coleoptrata* in France; Distributional and morphological aspects of the taxonomy of *Cryptops parisi* and *Cryptops parisi* var. *cristata* in France; description and distribution of *Lithobius dentatus* in Eastern France.
- ISHII, taxonomy and zoogeography of Diplopoda Penicillata and Chilopoda Lithobiomorpha (Brazil, Japan, China).
- JEEKEL, *Paradoxosomatidae of Tropical parts of the world.
- KIME, ecology & biogeography of European Millipedes.
- KOS, centipedes of the Balkan Peninsula
- LEWIS, taxonomy of Scolopendromorph, genera *Cryptops* and *Otosigmus* from Africa, Asia and Australasia. Revision of *Otosigmus* (subgen. *Otosigmus*) (Scolopendridae). *Taxonomy of *Cryptops* (Cryptopidae).
- LIM, Korean Diplopoda, taxonomy.
- MEIDELL, révision des Polydesmides holarctiques . - vide SPELDA.
- MESIBOV, taxonomy and biogeography of Tasmanian myriapods.
- MIKHALJOVA, review and distribution of diplopods and symphylids from Siberia, Russian Far East and Korea.
- MINELLI & SCHILEYKO, rev. genus *Newportia* Gervais (Scolopendromorpha).
- MONGE-NAJERA, world scale biogeography of Onychophorans.
- NEFEDIEV, *taxonomic relations between Siberian, far-eastern and north American diplopods.
- NGUYEN DUY - JACQUEMIN, taxonomy and distribution of Penicillata of the world. Révision of genres with biarticulate sensilla (Polyxenidae).
- *Taxonomy and distribution of Penicillata from Australia & Tasmania.
- PERERA, Géophilomorphes néarctiques, néotropicaux et africains.
- PIERRARD, taxonomy of Odontopygidae (genera *Xystopyge* & *Prionopetalum*).
- PRUNESCU C. & PRUNESCU P., *Contributions on the understanding of the evolution of the order Lithobiomorpha. Fam. Henicopidae.
- READ H., taxonomy of Siphonophorida from Brazil (Diplopoda).
- REDMAN, Systematics and biogeography of the Southern African Harpagophoridae.
- REID, systematics of Onychophora.
- RICHARDS, taxonomy of Diplopoda from Sarawak (Malaysia).
- ROSENBERG & VOIGTLÄNDER, taxonomy of European centipedes. Literature on Chilopoda.

- RUHBERG & GLEESON, revision of Onychophora: Peripatopsidae New-Zealand, taxonomy and phylogeny related to DNA sequences.
 SCHELLER, Pauropoda & Symphyla of the world.
 SCHILEYKO, Identification key to genera of the order Scolopendromorpha. Revision of *Newportia* and *Tidops*.
 SERRA, Chilopoda, taxonomie, écologie.
 SHEAR, Revision of Trichopetalidae, chordeumatids from China, new *Bueothobius* centipedes, new species of *Pseudotremia* and *Cleidona*, new genera and species of Caseyidae. *Revision of Striariidae, revision of *Schedotrigona*.
 SHELLEY, studies in the diplopod family Parajulidae, tribes Aniulini and Ptyiulini: genera *Ptyoiulus*, *Ethojulus*, **Gossulus*. Assessment of the tribe Gosiulinai. Revised family-level classification of the Diplopoda.
 SHELLEY & SHEAR, Study of *Sinocallipus simplipodicus*.
 SIERWALD, systematics on various groups; cladistic analysis on millipedes families.
 SPELDA, taxonomy, ecology, biogeography of diplopods and chilopods in Germany; revision of Craspedosomatidae and Haasiidae; revision of the group *Geophilus insculptus*.
 SPELDA (with GOLOVATCH & MEIDELL), revision of the family Polydesmidae (Genera *Schizoturanius*, *Jaxartes*, *Archipolydesmus*).
 STOECKLI, Species of Switzerland (Chilopoda). Faunistics, systematics, taxonomy.
 STOEV & ENGHOFF, Systematics, phylogeny and zoogeography of the genus *Balkanopetalum* (Callipodida).
 TABACARU, taxonomie et biogéographie des Diplopoda de Roumanie, Turquie, Israël, Liban, Cuba, et Venezuela.
 TANABE, Morphological and reproductive isolation in Japanese millipede populations.
 THALER, Taxonomy and faunistics of Diplopoda in the Eastern Alps.
 VANDENSPIEGEL, *revision du genre *Sphaerotherium*; Etude des diplopodes des Taita Hills (Kenya).
 WURMLI, revision of world Scutigeromorpha.
 ZAPPAROLI, Centipedes of Central Italy, Lithobiomorpha of Caucasus, Revision of the *Lithobius* gr. *elegans* Sselwi. *Centipedes of Cyprus.
 WILSON, millipede phylogeny. Revision of Paleozoic millipedes.
I- PALEONTOLOGY, FOSSILS
 HANNIBAL, studies on Carboniferous millipedes: sternal pores of euphoberiid diplopods.
 HOFFMAN, SANTIAGO-BLAY, Dominican amber diplopods.
 NGUYEN DUY - JACQUEMIN, Penicillata in Baltic amber.
 SHEAR, Paleozoic fossil Myriapods.
 SHEAR, SELDEN, JERAM, centipedes from the Devonian and Silurian.
 SCHELLER, Pauropoda in Baltic amber.
 WILSON, SHEAR, Microdecemplicida from the Devonian.
J- DISTRIBUTION
J1- AMERICA: Northern Nearctic America to Mexico
 Generalities:
 SHELLEY, synopsis of North American Scolopendromorpha and Diplopoda (Parajulidae). Canada:
 SHELLEY, *Millipede fauna of Central Canada. Mexico / Mexique:
 BUENO-VILLEGAS, Diplopoda of SianKaan Reserve.
 MEDRANO, millipedes of North Central Mexico. USA:
 HOFFMAN, Taxonomy of Diplopoda.
 MEDRANO, millipedes of the southwestern United States.
 SHEAR, millipedes.
 SHELLEY, millipedes, centipedes.
J1'- AMERICA: Central and South; Neotropical and Southern Americas
 Argentina / Argentine:
 PEREIRA, Chilopoda Geophilomorpha. Brazil / Brésil:
 CHAGAS, Scolopendromorpha. Revision of the Neotropical species of Scolopocryptopinae.
 FODDAI, PEREIRA, SCHILEYKO & MINELLI, Amazonian centipedes.
 FONTANELLI, Diplopoda (Pseudonannolene). GEOFFROY, & MAURIES, cave-dwelling millipedes, revision and cave speciation of the Brazilian genus *Leodesmus* (Chelodesmidae). GOLOVATCH & SPELDA, Amazonian Diplopoda: genera *Cyrtodesmus*, *Onicurosoma*, *Stemmatiulus*. GOLOVATCH & GEOFFROY, cave-dwelling millipedes, *Oniscodesmidae in caves.
 READ, Siphonophorida. Colombia / Colombie:
 FLOREZ DAZA, catalogue of Myriapods. Costa Rica / Costa Rica:
 MONGE-NAJERA, Onychophora: taxonomical review of Costa Rican species and description of a new species. Cuba / Cuba:
 NEGREA, Chilopoda cavernicoles & endogés. TABACARU, Diplopoda. Ecuador / Equateur:
 PEREIRA, FODDAI & MINELLI, Amazonian centipedes.
 République Dominicaine:
 SCHILEYKO, Scolopendromorphes. Galapagos:
 RUHBERG: Peripatopsidae (Onychophora). Guyane française / French Guyana:
 MAURIES, Diplopoda Chilognatha.
 NGUYEN DUY - JACQUEMIN, Diplopodes Penicillates. Guyana / Guyana:
 JEEKEL, Diplopoda. Jamaïque:
 SCHILEYKO, Scolopendromorphes. Peru / Pérou:
 KRAUS, monographie of Diplopoda. Suriname / Surinam:
 JEEKEL, Spirostreptida. Venezuela / Venezuela:
 JEEKEL, Paradoxosomatidae.
 NEGREA, Chilopoda cavernicoles & endogés. TABACARU, Diplopoda. West Indies / Antilles:
 JEEKEL, Diplopoda West Indies. MAURIES, Diplopoda, Martinique.
J2- AFRICA, MEDITERRANEAN & PALEOTROPICAL AREAS
 Algeria / Algérie:
 ABROUS-KHERBOUCHE, Myriapodes du Parc National de Djurdjura. Maroc / Maroc:
 GEOFFROY, *diplopodes cavernicoles.

J2'- AFRICA, ETHIOPIAN & SOUTHERN AREAS

Cameroon / Cameroun:
RUHBERG, Peripatopsidae (Onychophora).
Egypt / Egypte:
DEMANGE, Myriapodes de l'expédition Bonaparte.
Ivory Coast / Côte d'Ivoire:
BOURDANNE KADEBE, Distribution of Coromus granulosus.
Kenya / Kenya:
VANDENSPIEGEL, Diplopoda.
Namibia / Namibie:
ZAPPAROLI, *Centipedes.
Senegal / Sénégal:
TOURE, myriapods.
South Africa / Afrique du Sud:
GOLOVATCH, HAMER, Polydesmida, taxonomy and identification keys.
HAMER, Checklist of Diplopoda, rev. of Trianostreptus, key Spirostreptida; South-African Sphaerotheliids.
NGUYEN DUY - JACQUEMIN, Diplopoda Penicillata.
PEREIRA & MINELLI, Chilopoda Geophilomorpha.
REDMAN, Systematics and biogeography of the Southern African Harpagophoridae.
ZAPPAROLI, *Centipedes.

J3- AUSTRALO-PACIFIC

Australia / Australie:
BROCKMANN, Taxonomy and distribution of the oviparous onychophorans (Peripatopsidae) of Tasmania.
EDGEcombe, Systematics of Anopsobiinae (Chilopoda: Lithobiomorpha) of Australia.
Systematics of *Haasiella* (Chilopoda: Lithobiomorpha) in Australia. Systematics of *Lamycetes* (Chilopoda: Lithobiomorpha), with particular reference to Australian species.
JEEKEL, Polydesmida Paradoxosomatidae of Tasmania. Diplopoda of Australia.
JONES, Geophilomorph centipedes of Australasia.
MESIBOV, myriapods of Tasmania, taxonomy of Polydesmida.
NGUYEN DUY - JACQUEMIN, Diplopoda Penicillata (Tasmania).
REID, Australian and Tasmanian onychophorans.
RUHBERG, Peripatopsidae (Onychophora) from Tasmania.
Hawai / Hawaii:
SHELLEY, MINELLI, Geophilomorpha. Scolopendromorpha.
ZAPPAROLI, Lithobiidae of lava tubes.
New-Zealand / Nouvelle-Zélande:
REID, Onychophorans.
RUHBERG: Peripatopsidae (Onychophora).
Solomon Islands / Salomon:
JEEKEL, Diplopoda, Paradoxosomatidae.

J4- ASIA: PALEARCTIC & PALEOTROPICAL

Afghanistan:
STOEV, Centipeds collected in Afghanistan by P. Beron
Caucasus / Caucase:
ZAPPAROLI, Lithobiomorpha.
China / Chine:
ISHII, Penicillata from the Yunnan Province.
MAURIES, some Sphaerotheliida.
SHEAR, chordeumatids.
India / Inde:
ANTHONIAMMAL, Ecology of Diplopoda.
KHANNA, Centipedes of India (Scolopendromorpha).

BANO, Harpagophoridae & Paradoxosomatidae of South India.

BONATO, Mecistocephalid Geophilomorpha.

Indonesia / Indonésie:

HOFFMAN, Plathyrracidae.

Israel / Israël:

NEGREA, Chilopoda cavernicoles & endogés.

TABACARU, Diplopoda.

TAJOVSKY, *Diplopoda, Chilopoda

Japan / Japon:

HAGINO, Pauropoda.

ISHII, Lithobiomorpha (*Lithobius Monotarsobius*)

TANABE, Diplopoda Xystodesmidae.

TSURUSAKI, Checklists of millipedes of matsuyama City (Ehime Prefecture, Shikoku) ■ Korea / Corée:

LIM, Diplopoda, taxonomy.

KORSOS, Korean millipedes.

MIKHAILOVA, GOLOVATCH, WYTWER, review and distribution of diplopods.

Lebanon / Liban:

TABACARU, Diplopoda.

Malaysia / Malaisie:

JEEKEL, Diplopoda, Sphaerotheliidae.

RICHARDS, Diplopoda from Sarawak.

SCHELLER, Pauropoda and Symphyla.

Near East / Proche-Orient:

ZAPPAROLI, Centipedes.

Nepal / Népal:

SCHELLER, Euryporauporidae of the Nepal Himalayas.

Pakistan:

KHATOON, Chilopoda & Diplopoda.

Palestine:

NEGREA, Chilopoda cavernicoles & endogés.

Philippines:

JEEKEL, Diplopoda, Paradoxosomatidae.

Taiwan / Taiwan:

CHAO, Chilopoda, Scolopendromorpha and

*Geophilomorpha.

CHEN, Diplopoda from Taiwan.

KORSOS, Taiwanese millipedes.

Vietnam / Vietnam:

JEDRYCZKOWSKI, Diplopoda, *biodiversity of Tan Dao NP.

SCHILEYKO, Scolopendromorphes.

SHEAR, callipodan millipedes.

JS- EUROPE: PALEARCTIC & MEDITERRANEAN

Austria / Autriche:

GRUBER, Diplopoda & *Chilopoda de la région nord-orientale. Millipedes in hothouses in Vienna.

MEYER, v. ECOLOGY

SPELDA, Alpine Myriapoda.

SCHELLER, Symphyla from Austria.

THALER, Taxonomy and faunistics of Diplopoda in the Eastern Alps.

Belgium & Netherlands / Benelux:

BERG, Key for the Dutch centipedes. Distribution

Atlases of Dutch centipedes and millipedes.

JEEKEL, Millipedes and centipedes of The Netherlands.

KIME, the myriapods of Belgium and Luxembourg, Ardennes.

LOCK, List, Atlas Chilopoda of Belgium. *Searching expected new species for the Belgian fauna.

Belarus / Biélorussie:

MAKSIMOVA, Fauna and ecology of soil invertebrates.

Bulgaria / Bulgarie:

- KONDEVA, populations of millipedes in forests and in recreation zones.
- STOEV, rev. Chilopoda of caves.
Czech Republic / République Tchèque:
KOCOUREK, millipede fauna and distribution.
TAJOVSKY, Diplopoda and Chilopoda. Inventory in nature reserves.
TUF, TUFOVA, Centipedes and millipedes in forests.
WYTWER, Chilopoda of spruce forest in the Beskydy Mountains.
Cyprus / Chypre:
SPELDA, Chilopoda & Diplopoda.
ZAPPAROLI, *Centipedes.
France:
GEOFFROY, Checklist, taxonomy, distribution and mapping of chilopods and diplopods.
IORIO, systematics and distribution of centipedes (*Scutigera*, *Lithobius*, *Cryptops*) in north-eastern France.
KIME, distribution (millipedes).
NGYEN DUY - JACQUEMIN, distribution and mapping of Diplopoda Penicillata.
SPELDA, Corse, Alpes, Jura, Vosges.
Germany / Allemagne:
SPELDA: Diplopods and Chilopods: distribution of species and populations.
VOIGTLÄNDER, German polydesmids.
Greece / Grèce:
CURCIC & MAKAROV, Diplopoda of Crete.
SPELDA, Myriapoda of Eubée Island.
ZAPPAROLI, Centipedes.
Hungary / Hongrie:
KORSOS, Diplopoda.
Italia / Italie:
DI GIOVANNI, Diplopoda.
FODDAI, Chilopoda.
MINELLI, faune des Chilopodes.
SPELDA, Elba & N. Apennin.
ZAPPAROLI, Chilopoda.
Macaronesia and Canary Islands
ENGHOFF & GOLOWATCH, Revision of the Canarian *Glomeris alluaudi*-group. Revision of Macaronesian species of *Propolydesmus*.
Norway / Norvège:
MEIDELL, ANDERSSON, SCHELLER, DJURSVOLL, Myriapoda of Scandinavian countries.
Poland / Pologne:
JEDRYCZKOWSKI, biodiversity of East Carpathians.
LESNEWSKA, centipedes of Beskid Niski Mountains, centipedes of Poznan. Chilopoda of forests in Poland.
TRACZ, Chilopoda & Diplopoda of Bielowieza forest.
WYTWER, Chilopoda & Diplopoda of Białowieża forests.
Portugal:
BLACK, ecological damage by the Black Portuguese millipede.
GARCIA RUIZ, *Chilopodes cavernicola.
Romania / Roumanie:
CEUCA, CRISAN, Diplopoda des monts "Apuseni".
NEGREA, BOITAN, Chilopoda cavernicola & endogés.
TABACARU, Diplopoda.
Russia / Russie:
MIKHALJOVA, Diplopoda of Far East and Siberia, Asian part of Russia.
SCHELLER, MIKHALJOVA, Symphyla, Paupropoda of Far East and Siberia.
ZAPPAROLI, Lithobiomorpha (Fauna of Caucasus).
Slovakia / Slovaquie:
MOCK, Diplopoda in Slovakia / faunistics, ecology, taxonomy, biospeleology.
STASIOV, Myriapoda.
TAJOVSKY, Diplopoda.
Slovenia / Slovénie:
KOS, centipedes.
Spain / Espagne:
GARCIA RUIZ, *Chilopodes cavernicola.
KIME, *geographical ranges of Iberian diplopods.
MAURIES, Millipedes from Andalusia & Asturias.
NEGREA, Chilopoda cavernicola & endogés.
SPELDA, Diplopoda.
SERRA, Chilopoda.
Siberia / Sibérie:
MIKHALJOVA, Diplopoda of Far East and Siberia; *Chilopoda.
NEFEDIEV, Diplopoda and Chilopoda of western Siberia and Altai Mts: review, distribution and ecology.
SCHELLER, MIKHALJOVA, Symphyla, Paupropoda of Far East and Siberia.
Sweden / Suède:
ANDERSSON, the chilopod fauna. Switzerland / Suisse:
SPELDA, Myriapoda in mountains.
STOECKLI, Chilopoda. Faunistics, systematics, taxonomy.
Turkey / Turquie:
ÖNAL-TUNC, Chilopoda from Sondiken Mountains.
TABACARU, Diplopoda.
ZAPPAROLI, Catalogue of Centipedes.
UK & Ireland:
BARBER, taxonomy and distribution of centipedes in UK.
HOPKIN, taxonomy of Symphyla and Paupropoda of UK. *Identification key for UK Symphyla.
KIME, distribution of British and Irish millipedes.
LEE, distribution atlas of British millipedes.
LEWIS, British centipedes and millipedes.
READ, British millipedes.
RICHARDS, myriapods in UK.
Yugoslavia / Yougoslavie:
CURCIC, MAKAROV & MITIC, Diplopoda (Serbia, Montenegro, Macedonia).
K- COLLECTIONS
GEOFFROY, MAURIES & NGUYEN DUY - JACQUEMIN, Collections of Myriapods and Onychophorans, Museum national d'Histoire Naturelle, Paris (France).
SPELDA & MELTZER, documentation of myriapod types in German collections (GIBIF-project).
STAGL, Collections of Myriapods, Naturhistorisches Museum, Wien (Austria). Type catalogues of centipedes and millipedes.
STIRWALD, International Catalogue of Myriapod Collections.
STOEV, Collections of Chilopods and Diplopods, National Museum of natural History, Sofia (Bulgaria).

We are particularly interested by informations related to curators of collections, catalogues and location of type-specimens.

Any further data on research topics will be welcome.

List of works published or in press in 2002 & early 2003

Liste des travaux parus ou sous-presse en 2002 et début 2003

- 1.— Abzhanov A., Holtzman S. & Kaufman T.C. — 2001
The *Drosophila* proboscis is specified by two Hox genes, *proboscipedia* and *Sex combs reduced*, via repression of leg and antennal appendage genes. *Development (Camb.)*, **128** : 2803-2814.
- 2.— Adam T. — 2002
Exotische Schnurfüßer im Terrarium. *Craco*, **9** : 55-66.
- 3.— Adis J. — 2002
Editorial. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 1.
- 4.— Adis J. — 2002
Introduction. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 5-6.
- 5.— Adis J. — 2002
Sampling sites at Manaus. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 7-12.
- 6.— Adis J. — 2002
Taxonomical classification and biodiversity. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 13-15.
- 7.— Adis J. — 2002
Myriapoda: identification to classes. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 457-458.
- 8.— Adis J. — 2002
Recommended sampling techniques. In: *Amazonian Arachnida & Myriapoda (Series Faunistica 24)*. (Adis J., Ed.), Pensoft Publishers, Sofia & Moscow: 555-576.
- 9.— Adis J (Ed.). — 2002
Amazonian Arachnida & Myriapoda (Series Faunistica 24). Pensoft Publishers, Sofia & Moscow, 590pp.
- 10.— Adis J., Foddai D., Golovatch S.I., Hoffman R.L., Minelli A., de Moraes J.W., Pereira L.A., Scheller U., Schileyko A.A. & Würmli M. — 2002
Myriapoda at "Reserva Ducke", Central Amazonia / Brazil. *Amazoniana*, **17** (1/2) : 15-25.
- 11.— Adis J. & Junk W.J. — 2002
Terrestrial invertebrates inhabiting lowland river floodplains of Central Amazonia and Central Europe: a review. *Freshwater Biology*, **47** (4) : 711-731.
- 12.— Alagesan P. & Muthukrishnan J. — 2002
Effect of temperature on yolk utilization in *Xenobolus carnifex* (Fabricius) (Diplopoda: Spirobolida) [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology. 29 July - 2 August 2002, Mtuzini, South Africa*. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Petermaritzburg: 2.
- 13.— Alagesan P. & Muthukrishnan J. — 2002
Ecological energetics of the millipede, *Xenobolus carnifex* (Fabricius) (Diplopoda: Spirobolida) [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology. 29 July - 2 August 2002, Mtuzini, South Africa*. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Petermaritzburg: 20.
- 14.— Alexander K. — 2003
A massive concentration of *Polyxenus lagurus*. *British Myriapod and Isopod Group Newsletter*, **6** : 4.
- 15.— Arthur W. — 2001
Developmental drive: an important determinant of the direction of phenotypic evolution. *Evolution & Development*, **3** (4) : 271-278.
- 16.— Arthur W. — 2002
The interaction between developmental bias and natural selection: from centipede segments to a general hypothesis. *Heredity*, **89** (4) : 239-246.
- 17.— Arthur W. — 2002
One species of centipede becomes two. *British Myriapod and Isopod Group Newsletter*, **5** : 2.
- 18.— Arthur W. — 2002
The emerging conceptual framework of evolutionary developmental biology. *Nature*, **415** : 757-764.
- 19.— Arthur W., Johnstone J. & Kettle C. — 2002
Ecological and behavioural characteristics of *Geophilus easoni* Arthur et al. and *Geophilus carpophagus* Leach. *Bulletin of the British Myriapod & Isopod Group*, **18** : 26-32.
- 20.— Bani M. — 2001
La vita nelle grotte [Quaderni Didattici della Società Speleologica Italiana, 10]. Erga edizioni, Genova, 27pp.
- 21.— Barber A.D. — 2002
Centipede Recording Scheme: Important notes on recording *Geophilus carpophagus* & *Geophilus easoni* on RA58 records cards. *British Myriapod and Isopod Group Newsletter*, **5** : 2.
- 22.— Barber A.D. — 2003
Some south London myriapods. *British Myriapod and Isopod Group Newsletter*, **6** : 3.
- 23.— Bastianello A., Ronco M., Burato P.A. & Minelli A. — 2002
Hox gene sequences from the geophilomorph centipede *Pachymerium ferrugineum* (C.L. Koch, 1835) (Chilopoda: Geophilomorpha: Geophilidae): Implications for the evolution of the Hox class genes of arthropods. *Molecular Phylogenetics and Evolution*, **22** (1) : 155-161.

- 24.— Berg M. & Evenhuis C. — 2001
Determinatietabel voor de Nederlandse Duizendpoten (Myriapoda: Chilopoda). *Nederlandse Faunistische Mededelingen*, **15** : 41-78.
- 25.— Blackburn J., Farrow M. & Arthur W. — 2002
Factors influencing the distribution, abundance and diversity of geophilomorph and lithobiomorph centipedes. *Journal of Zoology (London)*, **256** (2) : 221-232.
- 26.— Boccardo L., Juca-Chagas R. & Penteado C.H.S. — 2002
Migration and population outbreaks of millipedes in coffee plantations, region of Alto Paranaiba, MG, Brazil [www.rc.unesp.br/ib/cea/holos]. *Holos Environment*, **2** (2) : ??-??
- 27.— Boitan V. & Negrea S. — 2001
Contribution to the knowledge of the terrestrial cavernicolous fauna from the middle Cerna Valley (Banat, Romania). *Travaux du Musée national d'Histoire naturelle "Grigore Antipa" (Bucarest)*, **43** : 11-22.
- 28.— Bonato L., Foddai D. & Minelli A. — 2002
A new meciotocephalid centipede from Ryukyu Islands and a revisit of 'Taiwanella' (Chilopoda: Geophilomorpha: Mecistocephalidae). *Zootaxa*, **86** : 1-12.
- 29.— Bonato L., Foddai D. & Minelli A. — 2003
Evolutionary trends and patterns in centipede segment based on a cladistic analysis of Mecistocephalidae (Chilopoda: Geophilomorpha) [in press]. *Systematic Entomology*, ?? : ??-??
- 30.— Bonato L. & Minelli A. — 2002
Parental care in *Dicellophilus carniolensis* (C. L. Koch, 1847): New behavioural evidence with implications for the higher phylogeny of centipedes (Chilopoda). *Zoologische Anzeiger*, **241** (3) : 193-198.
- 31.— Bond J.E. & Sierwald P. — 2002
Cryptic speciation in the *Anadenobolus excisus* millipede species complex on the Island of Jamaica. *Evolution*, **56** (6) : 1123-1135.
- 32.— Bonham K.J., Mesibov R. & Bashford R. — 2002
Diversity and abundance of some ground-dwelling invertebrates in plantation vs. native forests in Tasmania, Australia. *Forest Ecology and Management*, **158** : 237-247.
- 33.— Bossák P., Vasátko J., Čílek V., Dumnická E., Hanuláková D., Horáček I., Jeník J., Kopecký J., Marvanová L., Mlejnek R., Ruzicka V. & Zacharda M. — 2001
Czech Republic. In: *Encyclopaedia Biospeologica. Tome 3.* (Juberthie C. & Decu V., Ed.), Société de Biospéologie, Moulis, Bucarest: 1405-1426.
- 34.— Boutin C., Decu V., Juberthie C., Messoulli M. & Besson J.P. — 2001
Maroc. In: *Encyclopaedia Biospeologica. Tome 3.* (Juberthie C. & Decu V., Ed.), Société de Biospéologie, Moulis, Bucarest: 2133-2146.
- 35.— Brockman G. & Nevermann L. — 2003
The hemocytes of the centipede *Scutigera coleoptrata* (Chilopoda, Notostigmophora) with notes on their interactions with tracheae [in press]. *Journal of Morphology*, ?? : ??-??
- 36.— Burmester T. — 2001
Molecular evolution of the arthropod hemocyanin superfamily. *Molecular Biology and Evolution*, **18** (2) : 184-195.
- 37.— Burmester T. — 2002
Origin and evolution of arthropods hemocyanins and related proteins. *Journal of comparative Physiologie, ser. B*, **172** : 95-107.
- 38.— Burmester T. & Kusche K. — 2002
Hemocyanins from Myriapoda and Onychophora: physiological and evolutionary implications [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa.* (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 3.
- 39.— Burmester T. & Kusche K. — 2002
The evolution and diversity of the arthropod hemocyanin superfamily [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa.* (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 21.
- 40.— Camargo-Mathias M.I. & Fontanetti C.S. — 2002
First records of oenocytes found in association with Diplopoda fat body [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa.* (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 10.
- 41.— Camargo-Mathias M.I., Fontanetti C.S. & Fantazzini E.R. — 2002
Midgut of *Rhinocricus padbergi* (Diplopoda: Spirobolida): Ultrastructural features [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa.* (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 9.
- 42.— Caoduro G. — 2000
Gli animali cavernicoli dell'area dei Covoli di Velo. In: *Un importante sistema carsico dei Monti Lessini (VR): i Covoli di Velo.* (Vacari A & Zorzin R., Ed.), Museo Civico di Storia Naturale, Verona: 57-66.
- 43.— Caoduro G. & Zorzin R. — 2000
Guida alla Grotta di Monte Capriolo. Comune di Rovere Veronese, Verona, 32pp.
- 44.— Capone F., Puopolo M., Branchi I. & Alleva E. — 2002
A new easy accessible and low-cost method for screening olfactory sensitivity in mice: Behavioural and nociceptive response in male and female CD-1 mice upon exposure to millipede aversive odour. *Brain Research Bulletin*, **58** (2) : 193-202.
- 45.— Chagas-Junior A. — 2002
Taxonomic notes on the Neotropical caudatus group of *Parostostigmus* Pocock, 1895 (Scolopendromorpha: Scolopendridae: *Ostostigmus* Porat, 1886) [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa.* (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 22.
- 46.— Chagas-Junior A. — 2002
Sinopse da fauna de Scutigeromorpha (Chilopoda, Arthropoda) do Brasil [abstract]. In: *XXIV Congresso Brasileiro de Zoologia, Itajá 2002.* (S.B.Z., Ed.), Sociedade Brasileira de Zoologia, Itajá: 275.

27. — Chagas-Junior A., Giupponi A.L.P. & Baptista R.L.C. — 2002
Levantamento preliminar dos aracnídeos e miríápodos da região cárstica da Serra do Ramalho, Carinhanha, Bahia, Brasil [abstract]. In: *XXIV Congresso Brasileiro de Zoologia, Itajaí 2002*. (S.B.Z., Ed.), Sociedade Brasileira de Zoologia, Itajaí: 657.
48. — Chao J.L. & Chang H.W. — 2002
The Scolopendromorpha of Taiwan [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa*. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 22.
49. — Chen C.C. & Chang H.W. — 2002
On Paradoxosomatidae from Taiwan [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology, 29 July - 2 August 2002, Mtuzini, South Africa*. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 23.

Analysis, Modeling and Valuation. September 24-27, 2002, Brandenburg University of Technology Cottbus, Germany. Abstracts.* (??, Ed.), Brandenburg University of Technology Cottbus, : 86.

329.— Tanabe T. — 2002

Revision of the millipede genus *Parafontaria* Verhoeff, 1936 (Diplopoda, Xystodesmidae). *Journal of natural History,* 36 (18) : 2139-2183.

330.— Tanabe T. & Sota T. — 2002

Rapid divergence of genitalia in the millipede genus *Parafontaria* driven by sexual conflict [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology,* 29 July - 2 August 2002, Mtuzini, South Africa. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 38.

331.— Tracz H. — 2001

Waloryzacja lasów Puszczy Białowieskiej metoda zooindykacyjna na podstawie krocionogów (Diplopoda). In: *Próba szacunkowej waloryzacji lasów Puszczy Białowieskiej metoda zooindykacyjna.* (Szucek A., Ed.), Katedra Ochrony Lasu i Ekologii SGGW. Wyd. SGGW, Warszawa: 419.

332.— Tracz H. — 2002

Krocionogi (Diplopoda) w waloryzacji zagospodarowanych i chronionych lasów Puszczy Białowieskiej. In: *Zadania gospodarcze lasów a funkcje ochrony przyrody. Materiały VII Sympozjum Ochrony Ekoystemów Lesnych.* Rogów. 25-27/3/2002. (??, Ed.), Wyd. SGGW, ?? : 246-253.

333.— Trajano E. — 2001

Mapping Subterranean Biodiversity in Brazilian Karst Areas. In: *Mapping Subterranean Biodiversity. Cartographie de la biodiversité souterraine [Special Publication 6].* (Culver D.C., Deharveng L., Gibert J. & Sasowsky I.D., Ed.), Karst Waters Institute, Petersburg, PA: 67-70.

334.— Tsurusaki N. — 2002

Check-lists of the spiders, harvestmen, and millipedes of Matsuyama City (Ehime Prefecture, Shikoku, Japan). In: *Check-lists of the Wild Animals and Plants of Matsuyama City.* (Matsuyama Wildlife Research Council, Ed.), MWRC, Matsuyama City: 139-152.

335.— Tuf I.H. — 2002

Contribution to the knowledge of vertical distribution of soil macrofauna (Chilopoda, Oniscidea) in floodplain forest. In: *Studies on Soil Fauna in Central Europe. Proceedings of the 6th Central European Workshop on Soil Zoology.* Ceské Budejovice, April 23-25, 2001. (Tajovsky K., Balik V. & Pizl V., Ed.), Institute of Soil Biology, Academy of Sciences of the Czech Republic, Ceské Budejovice: 241-246.

336.— Tuf I.H. — 2002

Centipedes (Chilopoda) of floodplain forests affected by summer flood. Ph. D. Thesis, , Faculty of Science, Palacky University, 99pp.

337.— Tuf I.H. — 2002

Restoration of the centipede community (Chilopoda) after a summer flood [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology.* 29 July - 2 August 2002, Mtuzini, South Africa. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 38.

338.— Tuf I.H. — 2003

Effectivity of methods of soil macrofauna collection for centipede assemblages (Chilopoda) [in press]. *Myriapodologica Czecho-Slovaca,* 2 : ??-??

339.— Tuf I.H. & Tufová J. — 2002

"How are you after flood?" - soil invertebrates and high water. *Ziva,* 50 (6) : 269-272.

340.— Tufová J. — 2002

Development of millipede assemblages in floodplain forests after summer flood. In: *Studies on Soil Fauna in Central Europe. Proceedings of the 6th Central European Workshop on Soil Zoology.* Ceské Budejovice, April 23-25, 2001. (Tajovsky K., Balik V. & Pizl V., Ed.), Institute of Soil Biology, Academy of Sciences of the Czech Republic, Ceské Budejovice: 247-251.

341.— Tufová J. — 2002

The structure of population of *Leptoiulus proximus* (Nemec, 1896) (Diplopoda, Julidae) in floodplain forest after summer flood [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology.* 29 July - 2 August 2002, Mtuzini, South Africa. (Hamer M., Slotow R. & Redman G., Ed.), University of Natal, Durban & Pietermaritzburg: 39.

342.— Tufová J. & Tuf I.H. — 2002

"How are you after flood?" - terrestrial isopods, centipedes, and millipedes of National Nature Reserve Vrapac (Litovelské Pomoraví PLA) four years after disastrous summer flood [abstract] [in Czech]. In: *Zoological Days Brno 2002: Abstracts Book.* (Bryja J. & Zukal J., Ed.), Česká zoologická společnost, Brno: 38-39.

343.— Vallauri D (Ed.). — 2003

Livre blanc sur la protection des espèces naturelles en France. Forêts métropolitaines. Editions Tec & Doc, paris, 288pp.

344.— Van Den Spiegel D., Golovatch S.I. & Hamer M.L. — 2002

Revision of some of the oldest species in the millipede genus *Sphaerotherium* Brandt, 1833 (Diplopoda, Sphaerotheriida, Sphaerotheriidae), with new synonymies. *African Invertebrates,* 43 : 143-181.

345.— Vandenspiegel D., Golovatch S.I. & Hamer M.L. — 2002

Revision of some oldest species in the millipede genus *Sphaerotherium* Brandt, 1833 (Diplopoda, Sphaerotheriida, Sphaerotheriidae) [abstract]. In: *Abstracts of the 12th International Congress of Myriapodology,* 29 July - 2 August 2002, Mtuzini, South Africa. (Hamer M., Slotow R. & Redman G.,
